Milwaukee, Wisconsin 53202

STATEMENT OF ADDITIONAL INFORMATION

December 8, 2025

This Statement of Additional Information (“SAI”) provides general information about the Deepwater Beachfront Small Cap ETF (the “Fund”), a series of Manager Directed Portfolios (the “Trust”). This SAI is not a prospectus and should be read in conjunction with the Fund’s current prospectus dated December 8, 2025 (the “Prospectus”), as supplemented and amended from time to time. You may obtain a copy of the Prospectus and/or the annual and semi-annual reports to shareholders (when available), at no charge, by contacting the Fund at the address or toll-free telephone number below, or by visiting the Fund’s website at www.deepwatermgmt.com

GENERAL INFORMATION

The Fund is an exchange-traded fund (“ETF”) that is a separate series of the Trust. The Trust is an open-end management investment company consisting of multiple investment series. This SAI relates to the Fund. The Trust was organized as a Delaware statutory trust on April 4, 2006. The Trust is registered with the U.S. Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (together with the rules and regulations adopted thereunder, as amended, the “1940 Act”), as an open-end management investment company and the offering of the Fund’s shares (“Shares”) is registered under the Securities Act of 1933, as amended (the “Securities Act”). The Trust is governed by its Board of Trustees (the “Board”). The Declaration of Trust permits the Board to establish series of shares, each of which constitutes a series separate and distinct from the shares of the other series.

Deepwater Asset Management, LLC (“Deepwater” or the “Adviser”) serves as the investment adviser to the Fund. Penserra Capital Management LLC (“Penserra” or the “Sub-Adviser”) serves as the Fund’s sub-adviser.

The Fund offers and issues Shares at their net asset value (“NAV”) only in aggregations of a specified number of Shares (each, a “Creation Unit”). The Fund generally offers and issues Shares in exchange for a basket of securities (“Deposit Securities”) together with the deposit of a specified cash payment (“Cash Component”). The Fund reserves the right to permit or require the substitution of a “cash in lieu” amount (“Deposit Cash”) to be added to the Cash Component to replace any Deposit Security. Shares are listed on the Nasdaq Stock Market, LLC (the “Exchange”) and trade on the Exchange at market prices that may differ from the Shares’ NAV. Shares are also redeemable only in Creation Unit aggregations, primarily for a basket of Deposit Securities together with a Cash Component. Shares are also redeemable only in Creation Unit aggregations, primarily for a basket of Deposit Securities together with a Cash Component. As a practical matter, only institutions or large investors purchase or redeem Creation Units. Except when aggregated in Creation Units, Shares are not redeemable securities.

Shares may be issued in advance of receipt of Deposit Securities subject to various conditions, including a requirement to maintain on deposit with the Fund cash at least equal to a specified percentage of the value of the missing Deposit Securities, as set forth in the Participant Agreement (as defined below). The Fund may impose a transaction fee for each creation or redemption. In all cases, such fees will be limited in accordance with the requirements of the SEC applicable to management investment companies offering redeemable securities. As in the case of other publicly traded securities, brokers’ commissions on transactions in the secondary market will be based on negotiated commission rates at customary levels.

INVESTMENT POLICIES, STRATEGIES AND ASSOCIATED RISKS

The following information supplements the information concerning the Fund’s investment objective, policies and limitations found in the Prospectus.

Diversification Status. The Fund is diversified. Under applicable federal laws, to qualify as a diversified fund, the Fund, with respect to 75% of its total assets, may not invest more than 5% of its total assets in any one issuer and may not hold more than 10% of the voting securities of any one such issuer. The remaining 25% of the Fund’s total assets does not need to be “diversified” and may be invested in securities of a single issuer, subject to other applicable laws. The diversification of the Fund’s holdings is measured at the time the Fund purchases a security. However, if the Fund purchases a security and holds it for a period of time, the security may become a larger percentage of the Fund’s total assets due to movements in the financial markets. If the market affects several securities held by the Fund, the Fund may have a greater percentage of its assets invested in securities of fewer issuers. The Fund’s classification as a diversified fund is a fundamental policy, and cannot be changed without the prior approval of the Fund’s shareholders, as described under “Investment Limitations,” below.

Market and Regulatory Risk; General Market Risks. U.S. and international markets have experienced significant volatility in recent months and years. Events in the financial markets and economy may cause volatility and uncertainty and affect performance. Such adverse effects on performance could include a decline in the value and liquidity of securities held by the Fund, unusually high and unanticipated levels of redemptions, an increase in portfolio turnover, a decrease in NAV, and an increase in Fund expenses. It may also be unusually difficult to identify both investment risks and opportunities, in which case investment objectives may not be met. Market events may affect a single issuer, industry, sector, or the market as a whole. Traditionally liquid investments may experience periods of diminished liquidity. During a general downturn in the financial markets, multiple asset

classes may decline in value and the Fund may lose value, regardless of the individual results of the securities and other instruments in which the Fund invests. It is impossible to predict whether or for how long such market events will continue, particularly if they are unprecedented, unforeseen or widespread events or conditions. Therefore, it is important to understand that the value of your investment may fall, sometimes sharply and for extended periods, and you could lose money.

Governmental and regulatory actions, including tax law changes, may also impair portfolio management and have unexpected or adverse consequences on particular markets, strategies, or investments. Policy and legislative changes in the U.S. and in other countries are affecting many aspects of financial regulation and may in some instances contribute to decreased liquidity and increased volatility in the financial markets. The impact of these changes on the markets, and the practical implications for market participants, may not be fully known for some time. In addition, economies and financial markets throughout the world are becoming increasingly interconnected. As a result, whether or not the Fund invests in securities of issuers located in or with significant exposure to countries experiencing economic and financial difficulties, the value and liquidity of the Fund's investments may be negatively affected.

Money Market Funds. The Fund may invest in the securities of money market funds, within the limits prescribed by the 1940 Act.

U.S. Government Obligations. The Fund may invest in debt securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities. Although not all obligations of agencies and instrumentalities are direct obligations of the U.S. Treasury, the U.S. Government may provide support for payment of the interest and principal on these obligations directly or indirectly. This support can range from securities supported by the full faith and credit of the U.S. (for example, securities of the Government National Mortgage Association or "Ginnie Mae" securities), to securities that are supported solely or primarily by the creditworthiness of the issuer, such as securities issued by the Federal National Mortgage Association ("Fannie Mae"), the Federal Home Loan Mortgage Corporation ("Freddie Mac"), the Tennessee Valley Authority, Federal Farm Credit Banks and the Federal Home Loan Banks ("FHLBs"). In the case of obligations not backed by the full faith and credit of the U.S., the Fund must look principally to the agency or instrumentality issuing or guaranteeing the obligation for ultimate repayment and may not be able to assert a claim against the U.S. itself in the event the agency or instrumentality does not meet its commitments. Whether backed by full faith and credit of the U.S. Treasury or not, U.S. Government obligations are not guaranteed against price movements due to fluctuating interest rates.

Equity Securities. Equity securities, such as the common stocks of an issuer, are subject to stock market fluctuations and therefore may experience volatile changes in value as market conditions, consumer sentiment or the financial condition of the issuers change. A decrease in value of the equity securities in the Fund's portfolio may also cause the value of Shares to decline.

An investment in the Fund should be made with an understanding of the risks inherent in an investment in equity securities, including the risk that the financial condition of issuers may become impaired or that the general condition of the stock market may deteriorate (either of which may cause a decrease in the value of the Fund's portfolio securities and therefore a decrease in the value of Shares). Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence and perceptions change. These investor perceptions are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; and global or regional political, economic or banking crises.

Types of Equity Securities:

Common Stocks. Common stock represents a proportionate share of the ownership of a company and its value is based on the success of the company's business, any income paid to stockholders, the value of its assets, and general market conditions. In addition to the general risks set forth above, investments in common stocks are subject to the risk that in the event a company in which the Fund invests is liquidated, the holders of preferred stock and creditors of that company will be paid in full before any payments are made to the Fund as a holder of common stock. It is possible that all assets of that company will be exhausted before any payments are made to the Fund.

Preferred Stocks. Preferred stocks are also units of ownership in a company. Preferred stocks normally have preference over common stock in the payment of dividends and the liquidation of the company. However, in all

other respects, preferred stocks are subordinated to the liabilities of the issuer. Unlike common stocks, preferred stocks are generally not entitled to vote on corporate matters. Types of preferred stocks include adjustable-rate preferred stock, fixed dividend preferred stock, perpetual preferred stock, and sinking fund preferred stock.

Generally, the market values of preferred stock with a fixed dividend rate and no conversion element vary inversely with interest rates and perceived credit risk.

Holders of common stocks incur more risk than holders of preferred stocks and debt obligations because common stockholders, as owners of the issuer, generally have inferior rights to receive payments from the issuer in comparison with the rights of creditors or holders of debt obligations or preferred stocks. Further, unlike debt securities, which typically have a stated principal amount payable at maturity (whose value, however, is subject to market fluctuations prior thereto), or preferred stocks, which typically have a liquidation preference and which may have stated optional or mandatory redemption provisions, common stocks have neither a fixed principal amount nor a maturity. Common stock values are subject to market fluctuations as long as the common stock remains outstanding.

When-Issued Securities. A when-issued security is one whose terms are available and for which a market exists, but which has not been issued. When the Fund engages in when-issued transactions, it relies on the other party to consummate the sale. If the other party fails to complete the sale, the Fund may miss the opportunity to obtain the security at a favorable price or yield.

When purchasing a security on a when-issued basis, the Fund assumes the rights and risks of ownership of the security, including the risk of price and yield changes. At the time of settlement, the value of the security may be more or less than the purchase price. The yield available in the market when the delivery takes place also may be higher than those obtained in the transaction itself. Because the Fund does not pay for the security until the delivery date, these risks are in addition to the risks associated with its other investments.

Decisions to enter into “when-issued” transactions will be considered on a case-by-case basis when necessary to maintain continuity in a company’s index membership. The Fund will segregate cash or liquid securities equal in value to commitments for the when-issued transactions. The Fund will segregate additional liquid assets daily so that the value of such assets is equal to the amount of the commitments.

Rights and Warrants. A right is a privilege granted to existing shareholders of a corporation to subscribe to shares of a new issue of common stock before it is issued. Rights normally have a short life of usually two to four weeks, are freely transferable and entitle the holder to buy the new common stock at a lower price than the public offering price. Warrants are securities that are usually issued together with a debt security or preferred stock and that give the holder the right to buy proportionate amount of common stock at a specified price. Warrants are freely transferable and are traded on major exchanges. Unlike rights, warrants normally have a life that is measured in years and entitles the holder to buy common stock of a company at a price that is usually higher than the market price at the time the warrant is issued. Corporations often issue warrants to make the accompanying debt security more attractive.

An investment in warrants and rights may entail greater risks than certain other types of investments. Generally, rights and warrants do not carry the right to receive dividends or exercise voting rights with respect to the underlying securities, and they do not represent any rights in the assets of the issuer. In addition, their value does not necessarily change with the value of the underlying securities, and they cease to have value if they are not exercised on or before their expiration date. Investing in rights and warrants increases the potential profit or loss to be realized from the investment as compared with investing the same amount in the underlying securities.

Small-Capitalization Companies. Small-capitalization companies may have narrower markets for their goods and/or services and may have more limited managerial and financial resources than larger, more established companies. Furthermore, such companies may have limited product lines, services, markets, or financial resources or may be dependent on a small management group. In addition, because these stocks may not be well-known to the investing public, do not have significant institutional ownership or are typically followed by fewer security analysts, there will normally be less publicly available information concerning these securities compared to what is available for the securities of larger companies. Adverse publicity and investor perceptions, whether or not based on fundamental analysis, can decrease the value and liquidity of securities held by the Fund. As a result, small-capitalization

company performance can be more volatile and they may face greater risk of business failure, which could increase the volatility of the Fund's portfolio.

Borrowing. The Fund may borrow money as permitted under the 1940 Act. Such borrowings may be on a secured or unsecured basis at fixed or variable rates of interest. The 1940 Act requires the Fund to maintain continuous asset coverage of not less than 300% with respect to all borrowings. This allows the Fund to borrow for temporary or emergency purposes an amount equal to as much as 50% of the value of its net assets (not including such borrowings). If such asset coverage should decline to less than 300% due to market fluctuations or other reasons, the Fund is required to reduce the Fund's debt and restore the 300% asset coverage within three business days, and may be required to dispose of some of its portfolio holdings, even though it may be disadvantageous from an investment standpoint to dispose of assets at that time.

The use of borrowing by the Fund involves special risk considerations. Since substantially all of the Fund's assets fluctuate in value, whereas the interest obligation resulting from a borrowing will be fixed by the terms of the Fund's agreement with its lender, the asset value per share of the Fund will tend to increase more when its portfolio securities increase in value and decrease more when its portfolio securities decrease in value than would otherwise be the case if the Fund did not borrow funds. In addition, interest costs on borrowings may fluctuate with changing market rates of interest. Under adverse market conditions, the Fund might have to sell portfolio securities to meet interest or principal payments at a time when fundamental investment considerations would not favor such sales. The interest which the Fund must pay on borrowed money, together with any additional fees to maintain a line of credit or any minimum average balances required to be maintained, are additional costs to the Fund.

Illiquid Investments. The Fund may not knowingly invest more than 15% of its net assets in illiquid investments. An illiquid investment is an investment which the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. The Adviser makes the day to day determinations of liquidity pursuant to the Fund's liquidity risk management program, monitors the liquidity of investments held by the Fund and reports periodically on the Fund's liquidity to the Board. If the limitations on illiquid investments are exceeded, other than by a change in market values, the condition will be reported by the Adviser to the Board. Illiquid investments include securities issued by private companies and restricted securities (securities where the disposition of which is restricted under the federal securities laws), which are discussed below. Rule 144A securities may be treated as liquid securities if they meet the criteria in the Fund's liquidity risk management program. External market conditions may impact the liquidity of portfolio investments and may cause the Fund to sell or divest certain illiquid investments in order to comply with its limitation on holding illiquid investments, which may result in realized losses to the Fund.

Restricted Securities. Restricted securities may be sold only in privately negotiated transactions or in a public offering with respect to which a registration statement is in effect under the Securities Act. Where registration is required, the Fund may be obligated to pay all or part of the registration expenses and a considerable period may elapse between the time of the decision to sell a security and the time the Fund may be permitted to sell a security under an effective registration statement. If, during such a period, adverse market conditions were to develop, the Fund might obtain a less favorable price than that which prevailed when it decided to sell. Restricted securities will be priced at fair value as determined in good faith by the Adviser as the Board's Valuation Designee (defined below). If, through the appreciation of restricted securities or the depreciation of unrestricted securities, the Fund should be in a position where more than 15% of the value of its net assets are invested in illiquid investments, including restricted securities which are not readily marketable, the Fund will take such steps as is deemed advisable, if any, to protect liquidity.

Investment Company Securities and Exchange-Traded Funds. The Fund may invest in investment company securities, including money market funds and ETFs, to the extent permitted by the 1940 Act and the rules thereunder. Generally, the Fund may not purchase shares of an investment company if (a) such a purchase would cause the Fund to own in the aggregate more than 3% of the total outstanding voting stock of the investment company, (b) such a purchase would cause the Fund to have more than 5% of its total assets invested in the investment company, or (c) more than 10% of the Fund's total assets would be invested in investment companies. As a shareholder in an investment company, the Fund would bear its pro rata portion of the investment company's expenses, including advisory fees, in addition to its own expenses. Although the 1940 Act restricts investments by registered investment companies in the securities of other investment companies, including ETFs, registered

investment companies may be permitted to invest in certain investment companies beyond the limits set forth in Section 12(d)(1) pursuant to the “fund of funds” rules promulgated thereunder, including Rule 12d1-4. Rule 12d1-4 provides an exemption from Section 12(d)(1) that allows a registered investment company to invest all of its assets in other registered investment companies, including ETFs, if the registered investment company satisfies certain conditions specified in the rule, including, among other conditions, that the registered investment company and its advisory group will not control (individually or in the aggregate) an acquired fund (e.g., hold more than 25% of the outstanding voting securities of an acquired fund that is a registered open-end management investment company).

Depository Receipts. American Depositary Receipts (“ADRs”) as well as other “hybrid” forms of ADRs, including European Depositary Receipts (“EDRs”) and Global Depositary Receipts (“GDRs”), are certificates evidencing ownership of shares of a foreign issuer. These certificates are issued by depository banks and generally trade on an established market in the U.S. or elsewhere. The underlying shares are held in trust by a custodian bank or similar financial institution. The depository bank may not have physical custody of the underlying securities at all times and may charge fees for various services, including forwarding dividends and interest and corporate actions. ADRs may be available through “sponsored” or “unsponsored” facilities. A sponsored facility is established jointly by the issuer of the security underlying the receipt and a depository. An unsponsored facility may be established by a depository without participation by the issuer of the underlying security. Holders of unsponsored depository receipts generally bear all the costs of the unsponsored facility. The depository of an unsponsored facility frequently is under no obligation to distribute shareholder communications received from the issuer of the deposited security or to pass through, to the holders of the receipts, voting rights with respect to the deposited securities. ADRs are alternatives to directly purchasing the underlying foreign securities in their national markets and currencies. However, ADRs continue to be subject to many of the risks associated with investing directly in foreign securities. These risks include foreign exchange risk as well as the political and economic risks of the underlying issuer’s country.

Non-U.S. Securities. The Fund may invest in the securities of non-U.S. issuers (“foreign securities”) either directly by purchasing securities or indirectly by purchasing depository receipts or depository shares of foreign securities (see “Depository Receipts” above). Foreign securities include equity securities issued by issuers that are primarily traded on a non-U.S. exchange, debt securities issued by issuers located outside the U.S., and securities issued in the form of depository receipts. Direct investments in foreign securities may be made either on foreign securities exchanges or in the over-the-counter markets.

Risks of Investing in Foreign Securities. Investments in foreign securities involve certain inherent risks, including the following:

Political and Economic Factors. Individual foreign economies of certain countries may differ favorably or unfavorably from the U.S. economy in such respects as growth of gross national product, rate of inflation, capital reinvestment, resource self-sufficiency, diversification and balance of payments position. The internal policies of certain foreign countries may not be as stable as those of the United States. Governments in certain foreign countries also continue to participate to a significant degree, through ownership interest or regulation, in their respective economies. Action by these governments could include restrictions on foreign investment, nationalization, expropriation of goods or imposition of taxes, and could have a significant effect on market prices of securities and payment of interest. The economies of many foreign countries are heavily dependent upon international trade and are accordingly affected by the trade policies and economic conditions of their trading partners. Enactment by these trading partners of protectionist trade legislation could have a significant adverse effect upon the securities markets of such countries.

Currency Fluctuations. The Fund may invest in securities denominated in foreign currencies. Accordingly, a change in the value of any such currency against the U.S. dollar will result in a corresponding change in the U.S. dollar value of the Fund’s assets denominated in that currency. Such changes will also affect the Fund’s income. The value of the Fund’s assets may also be affected significantly by currency restrictions and exchange control regulations enacted from time to time.

Market Characteristics. Foreign securities in which the Fund invests will be purchased in over-the-counter markets or on exchanges located in the countries in which the principal offices of the issuers of the various securities are located, if that is the best available market. Foreign exchanges and markets may be more volatile than those in the U.S. While growing in volume, they usually have substantially less volume than U.S. markets, and the Fund’s foreign securities may be less liquid and more volatile than U.S. securities. Moreover, settlement practices for

transactions in foreign markets may differ from those in U.S. markets, and may include delays beyond periods customary in the U.S. Foreign security trading practices, including those involving securities settlement where Fund assets may be released prior to receipt of payment or securities, may expose the Fund to increased risk in the event of a failed trade or the insolvency of a foreign broker-dealer.

Legal and Regulatory Matters. Certain foreign countries may have less supervision of securities markets, brokers and issuers of securities, and less financial information available from issuers, than is available in the U.S.

Taxes. The interest and dividends payable on certain of the Fund's foreign portfolio securities may be subject to foreign withholding taxes, thus reducing the net amount of income available for distribution to Fund shareholders.

Costs. To the extent that the Fund invests in foreign securities, its expense ratio is likely to be higher than those of investment companies investing only in domestic securities, because the cost of maintaining the custody of foreign securities is higher.

Emerging Markets. Some of the securities in which the Fund may invest may be located in developing or emerging markets and therefore entail additional risks, including less social, political and economic stability; smaller securities markets and lower trading volume, which may result in less liquidity and greater price volatility; national policies that may restrict the Fund's investment opportunities, including restrictions on investments in issuers or industries, or expropriation or confiscation of assets or property; and less developed legal structures governing private or foreign investment.

In considering whether to invest in the securities of a foreign company, the Adviser may consider such factors as the characteristics of the particular company, differences between economic trends and the performance of securities markets within the U.S. and those within other countries, and also factors relating to the general economic, governmental and social conditions of the country or countries where the company is located. The extent to which the Fund will be invested in foreign companies and countries and depositary receipts will fluctuate from time to time, depending on the Adviser's assessment of prevailing market, economic and other conditions.

Private Placements. The Fund may invest in private placement securities, which are securities that are subject to restrictions on resale as a matter of contract or under federal securities laws. Private placements are often issued by privately held companies that are not subject to the reporting requirements of the SEC and are not required to maintain their accounting records in accordance with generally accepted accounting principles. Because there may be relatively few potential purchasers for such securities, the Fund could find it more difficult to sell such securities, especially under adverse market or economic conditions or in the event of adverse changes in the financial condition of the issuer. Investors in a private placement have less protection under the federal securities laws against improper practices than investors in publicly-traded securities.

Many private placement securities are issued by companies that are not required to file periodic financial reports, leading to challenges in evaluating the company's overall business prospects and determining how the investment is likely to perform over time. Due to the more limited financial information and lack of publicly available prices, it may be more difficult to determine the fair value of these securities for purposes of computing the Fund's NAV. Securities acquired in private placements generally are classified as illiquid. Disposing of securities acquired in private placements may involve time-consuming negotiations and legal expenses, and it may be difficult or impossible for the Fund to sell the security promptly at an acceptable price.

Repurchase Agreements. The Fund may invest in repurchase agreements. A repurchase agreement is a transaction in which the Fund purchases a security from a bank or recognized securities dealer and simultaneously commits to resell that security to a bank or dealer at an agreed upon date and price reflecting a market rate of interest, unrelated to the coupon rate or the maturity of the purchased security. While it is not possible to eliminate all risks from these transactions (particularly the possibility of a decline in the market value of the underlying securities, as well as delays and costs to the Fund if the other party to the repurchase agreement defaults), it is the policy of the Fund to limit repurchase transactions to primary dealers and banks whose creditworthiness has been reviewed and found satisfactory by the adviser. Repurchase agreements maturing in more than seven days are considered illiquid for purposes of the Fund's investment limitations.

Securities Lending. The Fund may lend securities pursuant to agreements that require that the loans be continuously secured by collateral equal to 100% of the market value of the loaned securities. Such collateral

consists of cash, securities of the U.S. Government or its agencies, or any combination of cash and such securities. Such loans will not be made if, as a result, the aggregate amount of all outstanding securities loans for the Fund exceeds one-third of the value of the Fund's total assets taken at fair market value. The Fund will earn interest on the investment of the cash collateral in U.S. Government securities, short-term money market instruments or another approved vehicle. However, the Fund will normally pay lending fees to such broker-dealers and related expenses from the interest earned on invested collateral. In addition, such Fund may pay fees to U.S. Bank, National Association, the Fund's securities lending agent, and such fees will be deducted from the Fund's securities lending revenues. There may be risks of delay in receiving additional collateral or risks of delay in recovery of the securities and even loss of rights in the collateral should the borrower of the securities fail financially. However, loans are made only to borrowers deemed by the Adviser to be of good standing and when, in the judgment of the Adviser, the consideration that can be earned currently from such securities loans justifies the attendant risk. Either party, upon reasonable notice to the other party, may terminate any loan.

Temporary Defensive Position. The Fund may, without limit, invest in cash, cash equivalents commercial paper and other money market instruments rated in one of the two highest rating categories by an NRSRO, in response to adverse market conditions, as a temporary defensive position. The result of this action may be that the Fund will be unable to achieve its investment objective.

INVESTMENT LIMITATIONS

The Fund has adopted the investment limitations set forth below. These limitations cannot be changed with respect to the Fund without the approval of the holders of a majority of the Fund's outstanding voting securities. For the purposes of the 1940 Act, a "majority of outstanding shares" means the vote of the lesser of: (1) 67% or more of the voting securities of the Fund present at the meeting if the holders of more than 50% of the Fund's outstanding voting securities are present or represented by proxy; or (2) more than 50% of the outstanding voting securities of the Fund. Except with respect to the asset coverage requirement under Section 18(f)(1) of the 1940 Act with respect to borrowing, if any percentage restriction on investment or utilization of assets is adhered to at the time an investment is made, a later change in percentage resulting from a change in the market values of the Fund or its assets or redemptions of shares will not be considered a violation of the limitation. The asset coverage requirement under Section 18(f)(1) of the 1940 Act with respect to borrowings is an ongoing requirement.

As a matter of fundamental policy, the Fund will not:

1. invest 25% or more of the value of the Fund's net assets, calculated at the time of purchase and taken at market value, in securities of issuers in any one industry. This restriction does not apply to obligations issued or guaranteed by the U.S. Government, its agencies or instrumentalities, or to securities issued by other investment companies. For purposes of this limitation states, municipalities and their political subdivisions are not considered to be part of any industry;
2. borrow money, except to the extent permitted by the 1940 Act;
3. make loans to other persons, except by: (1) purchasing debt securities in accordance with its investment objective, policies and limitations; (2) entering into repurchase agreements; or (3) engaging in securities loan transactions;
4. underwrite any issue of securities, except to the extent that the Fund may be considered to be acting as underwriter in connection with the disposition of any portfolio security;
5. purchase or sell real estate, provided that the Fund may invest in obligations secured by real estate or interests therein or obligations issued by companies that invest in real estate or interests therein, including real estate investment trusts;
6. purchase or sell physical commodities, provided that the Fund may invest in, purchase, sell or enter into financial options and futures, forward and spot currency contracts, swap transactions and other derivative financial instruments; or
7. issue senior securities, except to the extent permitted by the 1940 Act.

With respect to the restriction set forth in item (1) above, there is no limit on: (1) investments in U.S. government securities, in repurchase agreements collateralized by U.S. government securities, or in tax-exempt securities issued

by the states, territories, or possessions of the United States (“municipal securities”), excluding private activity municipal securities whose principal and interest payments are derived principally from the assets and revenues of a non-governmental entity; (2) investments in issuers domiciled in a single jurisdiction provided that the Fund does not invest greater than 25% of its net assets in a particular industry; or (3) certain asset-backed securities that are backed by a pool of loans issued to companies in a wide variety of industries unrelated to each other such that the economic characteristics of such a security are not predominantly related to a single industry to the extent permitted by the 1940 Act. With regard to the statement that the restriction set forth in fundamental policy (1) above does not apply to securities issued by other investment companies, the Fund recognizes that the SEC staff has maintained that a fund should consider the underlying investments of investment companies in which the fund is invested when determining concentration of the fund. The Fund will look through to the underlying holdings of investment companies in which the Fund is invested when determining the concentration of the Fund and its compliance with the restriction provided in item (1).

With respect to the restriction set forth in item (2) above, under current law as interpreted by the SEC and its staff, the Fund may borrow from: (a) a bank, provided that immediately after such borrowing there is an asset coverage of 300% for all borrowings of the Fund; or (b) a bank or other persons for temporary purposes only, provided that such temporary borrowings are in an amount not exceeding 5% of the Fund’s total assets at the time when the borrowing is made.

With respect to the restriction set forth in item (7), above, derivatives transactions, short sales and other obligations that create future payment obligations involve the issuance of “senior securities” for purposes of Section 18 of the 1940 Act. In addition, borrowings are considered senior securities under the 1940 Act, except the Fund may borrow from a bank in accordance with the asset coverage requirements of the 1940 Act.

EXCHANGE LISTING AND TRADING

Shares are listed for trading and trade throughout the day on the Exchange.

There can be no assurance that the Fund will continue to meet the requirements of the Exchange necessary to maintain the listing of Shares. The Exchange will consider the suspension of trading in, and will initiate delisting proceedings of, the Shares if any of the requirements set forth in the Exchange rules, including compliance with Rule 6c-11(c) under the 1940 Act, are not continuously maintained or such other event shall occur or condition shall exist that, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable. The Exchange will remove the Shares of the Fund from listing and trading upon termination of the Fund.

The Trust reserves the right to adjust the price levels of Shares in the future to help maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the Fund.

TRUSTEES AND OFFICERS

The business and affairs of the Trust are managed under the oversight of the Board, subject to the laws of the State of Delaware and the Trust’s Agreement and Declaration of Trust. The Board is currently comprised of four trustees who are not interested persons of the Trust within the meaning of the 1940 Act (the “Independent Trustees”). The Trustees are responsible for deciding matters of overall policy and overseeing the actions of the Trust’s service providers. The officers of the Trust conduct and supervise the Trust’s daily business operations. The mailing address of each Trustee and officer of the Trust is c/o U.S. Bank Global Fund Services, 615 East Michigan Street, Milwaukee, Wisconsin 53202.

⁽¹⁾ Each officer is elected annually and serves until his or her successor has been duly elected and qualified.

Leadership Structure and Responsibilities of the Board and the Committee. The Board has selected Scott Craven Jones to serve as Lead Independent Trustee. The position of Chairman of the Board is vacant and, as Lead Independent Trustee, Mr. Jones acts as Chairman. Mr. Jones’ duties include presiding at meetings of the Board and serving as Chairman during executive sessions of the Independent Trustees; interfacing with management to address significant issues that may arise between regularly scheduled Board and Committee meetings; acting as a liaison with the Trust’s service providers, officers, legal counsel, and other Trustees between meetings; helping to set Board meeting agendas; and performing other functions as requested by the Board from time to time.

The Board meets as often as necessary to discharge its responsibilities. Currently, the Board conducts regular quarterly meetings and may hold special meetings as necessary to address specific issues that require attention prior to the next regularly scheduled meeting. The Board also relies on professionals, such as the Trust’s independent registered public accounting firm and legal counsel, to assist the Trustees in performing their oversight responsibilities.

The Board has established one standing committee – the Audit Committee. The Board may establish other committees or nominate one or more Trustees to examine particular issues related to the Board’s oversight responsibilities, from time to time. The Audit Committee meets regularly to perform its delegated oversight functions and reports its findings and recommendations to the Board. For more information on the Audit Committee, see the section “Audit Committee,” below. Currently, the Board does not have a nominating committee. The Independent Trustees are responsible for identifying, evaluating and recommending nominees to the Board as needed. The Board will also consider properly qualified candidates submitted by shareholders. Any shareholder wishing to recommend a candidate for election may do so by sending a written notice to the Secretary of the Trust with the name, address and appropriate biographical information about the candidate.

The Board has determined that the Trust’s leadership structure is appropriate because it allows the Board to effectively perform its oversight responsibilities.

Audit Committee. The Audit Committee is comprised of all of the Independent Trustees. Mr. Lyman serves as the chairman of the Committee. Pursuant to its charter, the Audit Committee has the responsibility, among others, to (1) select the Trust’s independent auditors; (2) review and pre-approve the audit and non-audit services provided by the independent auditors; (3) review the scope of the audit and the results of the audit of the Fund’s financial statements; and (4) review with such independent auditors the adequacy of the Trust’s internal accounting and financial controls. Mr. Lyman and Mr. Jones serve as the Audit Committee’s “audit committee financial experts.”

Trustee Experience, Qualifications, Attributes and/or Skills. The following is a brief discussion of the experience, qualifications, attributes and/or skills that led to the Board’s conclusion that each individual identified below is qualified to serve as a Trustee of the Trust. In determining that a particular Trustee was qualified to serve as a Trustee, the Board has considered a variety of criteria, none of which was controlling. The Board believes that the Trustees’ ability to review critically, evaluate, question and discuss information provided to them, to interact effectively with the advisers to the Trust, other service providers, counsel and independent auditors, and to exercise effective business judgment in the performance of their duties, support the conclusion that each Trustee is qualified to serve as a Trustee of the Trust. Many Trustee attributes involve intangible elements, such as intelligence, work ethic, the ability to work together, the ability to communicate effectively and the ability to exercise judgment, ask incisive questions, manage people and develop solutions to problems.

Mr. Schoenike has been a trustee of the Trust since July 2016 and serves on the Audit Committee. He was employed by various subsidiaries of U.S. Bancorp from 1990 to 2018 and has decades of experience in the securities industry. In 2000, Mr. Schoenike founded Quasar Distributors, LLC and established Quasar as a FINRA member broker-dealer dedicated to underwriting and distributing mutual funds, of which he served as President and Chief Executive Officer. Mr. Schoenike previously participated in the FINRA securities arbitration program as an industry arbitrator. Mr. Schoenike previously served as Chairman of the Board from July 2016 to December 2020.

Mr. Lyman has been a trustee of the Trust since April 2015, serves as Chairman of the Audit Committee and has been designated as an audit committee financial expert for the Trust. Mr. Lyman has over 25 years of experience in the investment management industry. Since April 2023, Mr. Lyman serves as Chief Investment Officer and Senior Portfolio Manager of Mill Street Financial, LLC, part of the Ashton Thomas Private Wealth, LLC network, an investment adviser. Prior to joining Mill Street, Mr. Lyman served as Senior Portfolio Manager of Affinity Investment Advisors, LLC, an investment adviser, from 2017 to 2023; and from 2011 to 2016, he served as the Managing Director and portfolio manager of Kohala Capital Partners, an investment adviser. He also previously served as a vice president and portfolio manager of Becker Capital Management, Inc., an investment adviser. Mr. Lyman has an MBA from the Anderson School of Management at UCLA and holds the Chartered Financial Analyst designation.

Mr. Jones has been a trustee of the Trust since July 2016, has served as Lead Independent Trustee since May 2017, serves on the Audit Committee, and has been designated as an audit committee financial expert for the Trust. He has over 25 years of experience in the asset management industry as an independent director, attorney and executive, holding various roles including Chief Operating Officer, Chief Financial Officer and Chief Administrative Officer, with asset class experience ranging from municipal bonds to hedge funds. Mr. Jones currently is a trustee of four other registered investment companies and is a Managing Director of Carne Global Financial Services (US) LLC where his work includes director and risk oversight positions with investment advisers and serving as an independent director of private funds. Mr. Jones also currently serves as Managing Director of Park Agency Inc., a family office. Prior to that, he was an advisor to Wanzenburg Partners and served as Chief Operating Officer and Chief Financial Officer to Aurora Investment Management. He has a Juris Doctorate degree from Northwestern University School of Law and holds the Chartered Financial Analyst designation.

Mr. Greenberg has been a trustee of the Trust since July 2016 and serves on the Audit Committee. Mr. Greenberg has over 25 years of experience in the securities industry. He has been Chief Legal Officer and Senior Vice President of The Motley Fool Holdings, Inc. since 1996. He also served as General Counsel to Motley Fool Asset Management, LLC from 2008 to 2018 and as Manager of Motley Fool Wealth Management, LLC from 2013 to 2018. He has been a Venture Partner of Motley Fool Ventures LP since 2018 and was General Counsel from 2018 to 2023. Mr. Greenberg is a Director of The Motley Fool Holdings, Inc.’s wholly-owned subsidiaries in the United Kingdom, Australia, and Canada. Mr. Greenberg also has directorship experience through his service on private company boards. He has a Master’s degree and a Juris Doctorate degree from Stanford University.

Risk Oversight. The Board performs its risk oversight function for the Trust through a combination of (1) direct oversight by the Board as a whole and the Board committee, and (2) indirect oversight through the investment advisers and other service providers, Trust officers and the Trust's Chief Compliance Officer. The Trust is subject to a number of risks, including but not limited to investment risk, compliance risk, operational risk and reputational risk. Day-to-day risk management with respect to the series of the Trust, including the Fund, is the responsibility of the investment advisers or other service providers (depending on the nature of the risk) that carry out the Trust's investment management and business affairs. Each of the investment advisers and the other service providers have their own independent interest in risk management and their policies and methods of risk management will depend on their functions and business models and may differ from the Trust's and each other's in the setting of priorities, the resources available or the effectiveness of relevant controls.

The Board provides risk oversight by receiving and reviewing on a regular basis reports from the investment advisers and other service providers, receiving and approving compliance policies and procedures, periodic meetings with the Fund's portfolio managers to review investment policies, strategies and risks, and meeting regularly with the Trust's Chief Compliance Officer to discuss compliance reports, findings and issues. The Board also relies on the investment advisers and other service providers, with respect to the day-to-day activities of the Trust, to create and maintain procedures and controls to minimize risk and the likelihood of adverse effects on the Trust's business and reputation.

Board oversight of risk management is also provided by the Board's Audit Committee. The Audit Committee meets with the Fund's independent registered public accounting firm to ensure that the Fund's audit scope includes risk-based considerations as to the Fund's financial position and operations.

The Board may, at any time and in its discretion, change the manner in which it conducts risk oversight. The Board's oversight role does not make the Board a guarantor of the Fund's investments or activities.

Security and Other Interests. As of December 31, 2024, the Fund had not commenced operations and no Trustees of the Trust beneficially owned shares of the Fund. As of December 31, 2024, neither the Independent Trustees nor members of their immediate families, owned securities beneficially or of record in the Adviser, the Sub-Adviser, the Distributor (as defined below), or an affiliate of the Adviser, the Sub-Adviser, or Distributor. Accordingly, neither the Independent Trustees nor members of their immediate families, have a direct or indirect interest, the value of which exceeds \$120,000, in the Adviser, the Sub-Adviser, the Distributor or any of their affiliates. In addition, during the two most recently completed calendar years, neither the Independent Trustees nor members of their immediate families had a direct or indirect interest, the value of which exceeds \$120,000 in (i) the Adviser, the Sub-Adviser, the Distributor or any of their affiliates; (ii) any transaction or relationship in which such entity, the Fund, the Trust, any officer of the Trust, the Adviser, the Sub-Adviser, the Distributor, or any of their affiliates was a party; or (iii) any other relationship related to payments for property or services to the Fund, the Trust, any officer of the Trust, the Adviser, the Sub-Adviser, the Distributor, or any of their affiliates.

Compensation. For their services as Independent Trustees, the Independent Trustees receive compensation from the Trust and reimbursement for reasonable out-of-pocket expenses incurred in connection with attendance at Board or committee meetings. The Lead Independent Trustee and the Audit Committee Chair each receive additional compensation. The Trust has no pension or retirement plan. The Trustees' fees and expenses are allocated among the Fund and the other series comprising the Trust. The Fund's allocable portion of Independent Trustee fees are paid by the Adviser out of the unified management fee paid to the Adviser by the Fund, and Trustee compensation is not a direct expense of the Fund.

The following table shows the estimated compensation to be earned by each Trustee for the Fund's fiscal period ending October 31, 2026. With respect to the Fund, Independent Trustee fees are paid by the Adviser and not by the Fund. Trustee compensation does not include reimbursed out-of-pocket expenses in connection with attendance at meetings.

Independent Trustee	Estimated Aggregate Compensation	Pension or Retirement Benefits Accrued as Part of Trust Expenses	Estimated Annual Benefits Upon Retirement	Estimated Total Compensation from the Trust⁽¹⁾ Paid to Trustees:
Gaylord Lyman ⁽²⁾	\$6,250	\$0	\$0	\$78,750
Lawrence Greenberg	\$5,000	\$0	\$0	\$75,000
Scott Craven Jones ⁽³⁾	\$5,375	\$0	\$0	\$80,625
James R. Schoenike	\$5,000	\$0	\$0	\$75,000

⁽¹⁾ The Trust is currently comprised of multiple active portfolios managed by unaffiliated investment advisers.

⁽²⁾ Audit Committee Chair

⁽³⁾ Lead Independent Trustee

CODES OF ETHICS

The Trust, the Adviser and the Sub-Adviser have each adopted codes of ethics pursuant to Rule 17j-1 of the 1940 Act. These codes of ethics are designed to prevent affiliated persons of the Trust, the Adviser and the Sub-Adviser from engaging in deceptive, manipulative or fraudulent activities in connection with securities held or to be acquired by the Fund (which may also be held by persons subject to the codes of ethics). Each code of ethics permits personnel subject to that code of ethics to invest in securities for their personal investment accounts, subject to certain limitations, including limitations related to securities that may be purchased or held by the Fund. The Distributor (as defined below) relies on the principal underwriters exception under Rule 17j-1(c)(3) from the requirement to adopt a code of ethics pursuant to Rule 17j-1 because the Distributor is not affiliated with the Trust, the Adviser, or the Sub-Adviser and no officer, director, or general partner of the Distributor serves as an officer, director, or general partner of the Trust, the Adviser or the Sub-Adviser.

The code of ethics for the Trust, the Adviser and the Sub-Adviser may be found on the SEC's website at <http://www.sec.gov> as exhibits to the Fund's registration statement on Form N-1A.

PROXY VOTING

The Board has adopted proxy voting procedures, and thereunder delegated the responsibility for exercising the voting rights associated with the securities purchased and/or held by the Fund to the Adviser, subject to the Board's continuing oversight. In exercising its voting obligations, the Adviser is guided by general fiduciary principles. The Adviser must act prudently, solely in the interest of the Fund, and for the purpose of providing benefits to the Fund. The Adviser will consider the factors that could affect the value of the Fund's investment in its determination on a vote.

The Adviser has identified certain significant contributors to shareholder value with respect to a number of common or routine matters that are often the subject of proxy solicitations for shareholder meetings.

The Adviser's proxy voting procedures address these considerations and establish a framework for its consideration of a vote that would be appropriate for the Fund. In particular, the proxy voting procedures outline principles and factors to be considered in the exercise of voting authority for proposals addressing many common or routine matters. In the event a vote presents a conflict of interest, the Adviser has policies and procedures in place to mitigate the conflict, for example, removing a portfolio manager with the conflict from that specific proxy voting process and transferring the voting to other Adviser personnel.

The Fund's proxy voting record for the twelve-month period ended June 30 of each year will be available by August 31 of the same year (i) without charge, upon request, by calling (800) 497-2960, (ii) on the Fund's website at www.deepwatermgmt.com and (iii) on the SEC's website at www.sec.gov.

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding shares of the Fund. A control person is one who owns beneficially or through controlled companies more than 25% of the voting securities of the Fund or acknowledges the existence of control. A controlling person possesses the ability to control the outcome of matters submitted for shareholder vote by the Fund. As of the date of this SAI, there were no principal shareholders or control persons of the Fund. Further, as of the date this SAI, the Fund had not yet commenced operations and therefore the Trustees and officers as a group owned beneficially (as the term is defined in Section 13(d) under the Securities and Exchange Act of 1934, as amended) less than 1% of the outstanding shares of the Fund.

INVESTMENT ADVISORY AND SUB-ADVISORY SERVICES

Investment Adviser

The Adviser, Deepwater Asset Management, LLC, located at 21 North Third Street, Suite 250, Minneapolis, Minnesota 55401, serves as the investment adviser to the Fund pursuant to the advisory agreement between the Trust and the Adviser (the "Advisory Agreement"). The Adviser is majority-owned by Andrew Murphy, Douglas Clinton, Charles Munster, and Joe Robillard.

Pursuant to the Advisory Agreement, the Adviser has agreed to pay all expenses of the Fund, except for: the fees paid to the Adviser pursuant to the Investment Advisory Agreement, interest charges on any borrowings, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, shareholder service fees and expenses, distribution (12b-1) fees and expenses, if any, and certain other excluded expenses. Pursuant to the Advisory Agreement, the Adviser is entitled to receive a unified management fee, which is calculated daily and paid monthly, at an annual rate of 0.85% of the average daily net assets of the Fund.

Under the terms of the Advisory Agreement, the Adviser, with respect to the Fund, agrees to: (a) furnish the Fund with advice and recommendations with respect to the investments of the Fund, as well as manage and oversee the investments of the Fund, subject to the ultimate supervision of the Board and in accordance with the Fund's investment objective, policies and limitations set forth in the Prospectus and this SAI; (b) purchase and sell the Fund's securities and other investments consistent with the Fund's investment objective and policies; (c) make recommendations with respect to the hiring, termination and replacement of a Sub-Adviser; (d) vote proxies for the Fund, file ownership reports under Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), for the Fund, and take other actions on behalf of the Fund; (e) make available and provide such information as the Fund and/or its administrator and distributor may reasonably request for use in the preparation of its registration statement, reports and other documents required by any applicable federal, foreign or state statutes or regulations; and (f) make its officers and employees available to the Board and officers of the Trust for consultation and discussion regarding the management of the Fund and its investment activities as they may reasonably request, including at least one appearance in person or via videoconference annually before the Board. Additionally, the Adviser agrees to create and maintain all necessary records in accordance with all applicable laws, rules and regulations pertaining to the various functions performed by it and not otherwise created and maintained by another party pursuant to a contract with the Fund.

The Advisory Agreement has an initial term of two years and continues in effect from year to year thereafter if such continuance is specifically approved at least annually by the Board, including a majority of the Independent Trustees or by a majority of the outstanding voting securities of the Fund. The Advisory Agreement may be terminated by the Trust, by vote of the Board or shareholders of the Fund, or the Adviser on 60 days' written notice without penalty. The Advisory Agreement will also terminate automatically in the event of its assignment as defined in the 1940 Act. The Advisory Agreement provides that the Adviser shall not be liable for any error of judgment or mistake of law or for any loss suffered by the Fund in connection with the matters to which the agreement relates, except to the extent of a loss resulting from the Adviser's willful misfeasance, bad faith, negligence or reckless disregard of the obligations or duties under the Advisory Agreement.

Sub-Adviser

The Adviser has retained Penserra Capital Management LLC, located at 4 Orinda Way, Suite 100-A, Orinda, California 94563, to serve as sub-adviser for the Fund. The Sub-Adviser is a registered investment adviser and New York limited liability company. The Sub-Adviser is owned and controlled by George Madrigal and Dustin Lewellyn.

Pursuant to a Sub-Advisory Agreement between the Adviser and the Sub-Adviser (the “Sub-Advisory Agreement”), the Sub-Adviser is responsible for trading portfolio securities on behalf of the Fund, including selecting broker-dealers to execute purchase and sale transactions as instructed by the Adviser, subject to the supervision of the Adviser and the Board. For its services, the Sub-Adviser is paid a sub-advisory fee by the Adviser.

The Sub-Advisory Agreement has an initial term of two years and continues in effect from year to year if such continuance is specifically approved at least annually by the Board, including a majority of the Independent Trustees, casting votes in person (or in another manner authorized by the 1940 Act or the SEC) at a meeting called for such purpose. The Sub-Advisory Agreement may be terminated, without penalty, with respect to the Fund: (i) by the Fund at any time by the vote of a majority of the Board or by the vote of a majority of the outstanding voting securities of the Fund or by the Adviser at any time, in each case on not more than 60 days’ written notice to the Sub-Adviser; or (ii) by the Sub-Adviser at any time on not more than 90 days’ written notice to the Trust and the Adviser; or (iii) under other circumstances as provided for in the Sub-Advisory Agreement. The Sub-Advisory Agreement will also terminate automatically in the event of its assignment as defined in the 1940 Act.

The Sub-Advisory Agreement provides that the Adviser shall indemnify the Sub-Adviser for claims and losses arising from the Sub-Advisory Agreement, subject to offset to the extent such claims or losses are related to the Sub-Adviser’s own willful misfeasance, fraud, bad faith or gross negligence, or reckless disregard of its duties thereunder.

PORTFOLIO MANAGER

As described in the Prospectus, the Fund’s portfolio manager is Joe Robillard (the “Portfolio Manager”).

Other Accounts Managed. The following table provides additional information about other accounts managed by the portfolio manager, who is primarily responsible for the day-to-day management of the Fund as of October 31, 2025.

Portfolio Manager and Category of Account	Total Number of Accounts Managed	Total Assets in Accounts Managed	Number of Accounts for which Advisory Fee is Based on Performance	Assets in Accounts for which Advisory Fee is Based on Performance
<i>Joe Robillard</i>				
Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Vehicles	1	\$27,898,888	1	\$16,433,943
Other Accounts	3	\$221,843,272	2	\$162,108,672

Material Conflicts of Interest. Material conflicts of interest that may arise in connection with the Portfolio Manager’s management of the Fund’s investments and investments of other accounts managed include material conflicts between the investment strategy of the Fund and the investment strategy of the other accounts managed by the Portfolio Manager and conflicts associated with the allocation of investment opportunities between the Fund and other accounts managed by the Portfolio Manager. Subject to any restrictions under the Adviser’s Code of Ethics, the Portfolio Manager may buy and sell securities for his own accounts but may not buy securities from or sell securities to the Fund.

Compensation. As of the date of this SAI, the Portfolio Manager is compensated by the Adviser through a fixed salary and potential bonus compensation. Mr. Robillard is an owner of the Adviser and may also receive additional compensation based on the profitability of the overall business.

Ownership of securities. Because the Fund is new, the Portfolio Manager does not own any Shares of the Fund as of the date of this SAI.

THE DISTRIBUTOR

The Trust, the Adviser, and Quasar Distributors, LLC (the “Distributor”), a wholly-owned subsidiary of Foreside Financial Group, LLC (d/b/a ACA Group), are parties to a distribution agreement (the “Distribution Agreement”), and a distribution services agreement, whereby the Distributor acts as principal underwriter for the Fund and distributes Shares. Shares are continuously offered for sale by the Distributor only in Creation Units. The Distributor will not distribute Shares in amounts less than a Creation Unit and does not maintain a secondary market in Shares. The principal business address of the Distributor is 190 Middle Street, Suite 301, Portland, Maine 04101.

Under the Distribution Agreement, the Distributor, as agent for the Trust, will review orders for the purchase and redemption of Creation Units, provided that any subscriptions and orders will not be binding on the Trust until accepted by the Trust. The Distributor is a broker-dealer registered under the 1934 Act and a member of FINRA.

The Distributor may also enter into agreements with securities dealers (“Soliciting Dealers”) who will solicit purchases of Creation Units of Shares. Such Soliciting Dealers may also be Authorized Participants (as discussed in “Procedures for Purchase of Creation Units” below) or DTC participants (as defined below).

The Distribution Agreement will continue for two years from its effective date and is renewable annually thereafter. The continuance of the Distribution Agreement must be specifically approved at least annually (i) by the vote of the Trustees or by a vote of the shareholders of the Fund and (ii) by the vote of a majority of the Independent Trustees who have no direct or indirect financial interest in the operations of the Distribution Agreement or any related agreement, cast in person at a meeting called for the purpose of voting on such approval. The Distribution Agreement is terminable without penalty by the Trust on 60 days’ written notice when authorized either by majority vote of its outstanding voting Shares or by a vote of a majority of its Board (including a majority of the Independent Trustees), or by the Distributor on 60 days’ written notice, and will automatically terminate in the event of its assignment. The Distribution Agreement provides that in the absence of willful misfeasance, bad faith or negligence in the performance of its duties or by reason of its reckless disregard of its obligations and duties thereunder, the Distributor shall not be liable for any action or failure to act in accordance with its duties thereunder.

THE ADMINISTRATOR, CUSTODIAN, AND TRANSFER AGENT

Fund Administrator, Transfer Agent, and Fund Accountant

Fund Services, located at 615 East Michigan Street, Milwaukee, Wisconsin 53202, acts as the Fund’s administrator pursuant to an administration agreement between Fund Services and the Trust, on behalf of the Fund. Fund Services provides certain administrative services to the Fund, including, among other responsibilities, coordinating the negotiation of contracts and fees with, and the monitoring of performance and billing of, the Fund’s independent contractors and agents; preparing for signature by an officer of the Trust all of the documents required to be filed for compliance by the Trust and the Fund with applicable laws and regulations excluding those of the securities laws of various states; arranging for the computation of performance data, including NAV and yield; responding to shareholder inquiries; and arranging for the maintenance of books and records of the Fund, and providing, at its own expense, office facilities, equipment and personnel necessary to carry out its duties. In this capacity, Fund Services does not have any responsibility or authority for the management of the Fund, the determination of investment policy, or for any matter pertaining to the distribution of Fund shares. As compensation for its services, Fund Services receives from the Fund a combined fee for fund administration and fund accounting services based on the Fund’s current average daily net assets. Fund Services is also entitled to be reimbursed for certain out-of-pocket expenses. Fund Services also acts as fund accountant (“Fund Accountant”), transfer agent (“Transfer Agent”) and dividend disbursing agent under separate agreements with the Trust.

The Fund is new and the Adviser has not paid the Administrator any fees for administrative services to the Fund as of the date of this SAI.

Compliance Services

Fund Services provides compliance services to the Fund pursuant to a service agreement between Fund Services and the Trust, on behalf of the Fund. Under this service agreement, Fund Services also provides an individual to serve as

Chief Compliance Officer to the Trust, subject to the approval and oversight of the Board. The Board has approved Ms. Silver as Chief Compliance Officer of the Trust.

Custodian

U.S. Bank National Association (the “Custodian”), located at 1555 North River Center Drive, Suite 302, Milwaukee, Wisconsin, 53212, an affiliate of Fund Services, serves as the custodian of the Fund’s assets pursuant to a custody agreement between the Custodian and the Trust, on behalf of the Fund. The Custodian charges fees on a transactional basis plus out-of-pocket expenses. The Custodian maintains custody of securities and other assets of the Fund, delivers and receives payments for securities sold, receives and pays for securities purchased, and collects income from investments. The Custodian does not participate in decisions relating to the purchase and sale of securities by the Fund. The Custodian and its affiliates may participate in revenue sharing arrangements with service providers of other investment companies in which the Fund may invest

Legal Counsel

Godfrey & Kahn, S.C., 833 East Michigan Street, Suite 1800, Milwaukee, Wisconsin 53202, serves as counsel to the Trust and the Independent Trustees.

Independent Registered Public Accounting Firm

Cohen & Company, Ltd., located at 1835 Market Street, Suite 310, Philadelphia, Pennsylvania 19103, serves as the independent registered public accounting firm for the Fund. Its services include auditing the Fund’s financial statements. Cohen & Co Advisory, LLC, an affiliate of Cohen & Company, Ltd., provides tax services as requested.

PORTFOLIO HOLDINGS DISCLOSURE POLICIES AND PROCEDURES

The Trust’s Board has adopted a policy regarding the disclosure of information about the Fund’s security holdings. The Fund’s entire portfolio holdings are publicly disseminated each day the Fund is open for business and may be available through financial reporting and news services, including publicly available internet web sites. In addition, the composition of the Deposit Securities is publicly disseminated daily prior to the opening of the Exchange via the National Securities Clearing Corporation (“NSCC”).

BROKERAGE ALLOCATION AND OTHER PRACTICES

Brokerage Transactions. The Adviser and/or the Sub-Adviser place or arrange for all portfolio transactions on behalf of the Fund, selects broker-dealers for such transactions, allocates brokerage fees in such transactions and, where applicable, negotiates commissions and spreads on transactions. The Adviser and the Sub-Adviser have a fiduciary duty to the Fund to obtain best execution, on an overall basis, for any securities transaction.

Equity securities are generally bought and sold in brokerage transactions placed on U.S. stock exchanges or in the over-the-counter market in exchange for negotiated brokerage commissions. Accordingly, the cost of transactions may vary among different brokers.

With respect to over-the-counter transactions, the Adviser or the Sub-Adviser will normally deal directly with dealers who make a market in the securities involved except in those circumstances where better prices and execution are available elsewhere.

Fixed income and convertible securities are bought and sold through broker-dealers acting on a principal basis. These trades are not charged a commission, but rather are marked up or marked down by the executing broker-dealer. The Adviser or the Sub-Adviser does not know the actual value of the markup/markdown. The Adviser or the Sub-Adviser attempts to ascertain whether the overall price of a security is reasonable through the use of market quotes and analysis. The Adviser or the Sub-Adviser may receive eligible brokerage or research services for fixed income or equity trades from certain broker-dealers in accordance with SEC guidance and consistent with the Adviser's or Sub-Adviser’s best execution policy. The Fund will bear the implicit trading cost of the bid-ask spread in fixed income transactions.

Brokers or dealers that execute the Fund’s portfolio transactions may include Authorized Participants (as discussed in “Procedures for Purchase of Creation Units” below) or their affiliates as selected by the Adviser or the Sub-Adviser. An Authorized Participant or its affiliates may be selected to execute the Fund’s portfolio transactions in conjunction with an all-cash creation unit order or an order including “cash-in-lieu” (as described below under “Purchase and Redemption of Shares in Creation Units”). As described below under “Purchase and Redemption of

Shares in Creation Units—Creation Transaction Fee” and “—Redemption Transaction Fee”, the Fund may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders, e.g., for creation orders that facilitate the rebalance of the Fund’s portfolio in a more tax efficient manner than could be achieved without such order, even if the decision to not charge a variable fee could be viewed as benefiting the Authorized Participant or its affiliate selected to execute the Fund’s portfolio transactions in connection with such orders.

Brokerage Selection. The primary objective of the Adviser and the Sub-Adviser in placing orders on behalf of the Fund for the purchase and sale of securities is to obtain best execution at the most favorable prices through responsible brokers or dealers and, where the spread or commission rates are negotiable, at competitive rates. In selecting and monitoring a broker or dealer, the Adviser and the Sub-Adviser consider, among other things, a broker or dealer’s: (i) general execution capability; (ii) operational ability to clear and settle transactions; (iii) capital positions and risk taking ability; (iv) historical trading experience in a stock; (v) personnel and their integrity; and (vi) quality of research and investment information. The Adviser and the Sub-Adviser may also consider any special needs required by trading staff. The Adviser and the Sub-Adviser execute trades on behalf of the Fund from brokers approved by the Adviser and the Sub-Adviser.

Due to the nature of over-the-counter trading, typically on a principal basis, brokers are usually compensated through their markups and markdowns. That is, the broker will sell a security to the Fund for more than the broker purchased the security and will purchase a security from the Fund for less than the amount it may receive from the sale of that security to a third party. The Adviser does not have transparency into the compensation being received by a broker for a transaction with the Fund in most cases. This lack of transparency can impact the Adviser’s ability to seek best execution.

Section 28(e) of the Securities Exchange Act of 1934 provides that an investment adviser, under certain circumstances, lawfully may cause an account to pay a higher commission than the lowest available. Under Section 28(e), an investment adviser is required to make a good faith determination that the commissions paid are reasonable in relation to the value of the brokerage and research services provided viewed in terms of either that particular transaction or the investment adviser’s overall responsibilities with respect to accounts as to which it exercises investment discretion. The services provided by the broker also must lawfully or appropriately assist the investment adviser in the performance of its investment decision-making responsibilities. Accordingly, in recognition of research services provided to them, the Fund may pay a higher brokerage commission than those available from another broker. Research services that the Fund obtain, from a broker-dealer in connection with the payment of brokerage commissions may either be the broker-dealer’s own proprietary research or third party research obtained by the broker-dealer through payment of a portion of their commissions to third parties for research products or services.

Research services received from broker-dealers supplement the Adviser’s and Sub-Adviser’s own research (and the research of any affiliates), and may include the following types of information: statistical and background information on the U.S. and foreign economies, industry groups and individual companies; forecasts and interpretations with respect to the U.S. and foreign economies, securities, markets, specific industry groups and individual companies; information on federal, state, local and foreign political developments; portfolio management strategies; performance information on securities, indexes and investment accounts; information concerning prices of securities; and information with respect to the performance, investment activities, and fees and expenses of other funds.

Broker-dealers may communicate such information electronically, orally, in written form or on computer software. Research services may also include the providing of electronic communications of trade information, the arranging of meetings with management of companies, and the providing of access to consultants who supply research information. The outside research assistance is useful to the Adviser and the Sub-Adviser since the broker-dealers used by the Adviser and the Sub-Adviser tend to follow a broad universe of securities and the research provided by such broker-dealers may provide the Adviser and the Sub-Adviser with a diverse perspective on financial markets. Research services provided to the Adviser and the Sub-Adviser by broker-dealers are available for the benefit of all accounts managed or advised by the Adviser and the Sub-Adviser or by their affiliates. The Adviser and the Sub-Adviser cannot readily determine the extent to which spreads or commission rates or net prices charged by brokers or dealers reflect the value of their research, analysis, advice and similar services.

The Fund may at times invest in securities of their regular broker-dealers or the parent of their regular broker-dealers.

Allocation of Portfolio Transactions. Some of the Adviser's and the Sub-Adviser's other clients may have investment objectives and programs similar to that of the Fund. Occasionally, recommendations made to other clients may result in their purchasing or selling securities simultaneously with the Fund. Consequently, the demand for securities being purchased or the supply of securities being sold may increase, and this could have an adverse effect on the price of those securities. It is the policy of the Adviser and the Sub-Adviser not to favor one client over another in making recommendations or in placing orders. In the event of a simultaneous transaction, purchases or sales are averaged as to price, transaction costs are allocated between the Fund and other clients participating in the transaction on a pro rata basis and purchases and sales are normally allocated between the Fund and the other clients as to amount according to a formula determined prior to the execution of such transactions.

PORTFOLIO TURNOVER RATE

Portfolio Turnover. The portfolio turnover rate is calculated by dividing the lesser of purchases or sales of portfolio securities by the average monthly value of the Fund's portfolio securities. For purposes of this calculation, portfolio securities exclude all securities having a maturity when purchased of one year or less. High portfolio turnover may result in increased brokerage costs to the Fund and also adverse tax consequences to the Fund's shareholders.

BOOK ENTRY ONLY SYSTEM

The Depository Trust Company ("DTC") acts as securities depository for Shares. Shares are represented by securities registered in the name of DTC or its nominee, Cede & Co., and deposited with, or on behalf of, DTC. Except in limited circumstances set forth below, certificates will not be issued for Shares.

DTC is a limited-purpose trust company that was created to hold securities of its participants (the "DTC Participants") and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by the New York Stock Exchange ("NYSE") and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers, and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (the "Indirect Participants").

Beneficial ownership of Shares is limited to DTC Participants, Indirect Participants, and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in Shares (owners of such beneficial interests are referred to in this SAI as "Beneficial Owners") is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase of Shares. The Trust recognizes DTC or its nominee as the record owner of all Shares for all purposes. Beneficial Owners of Shares are not entitled to have Shares registered in their names and will not receive or be entitled to physical delivery of Share certificates. Each Beneficial Owner must rely on the procedures of DTC and any DTC Participant and/or Indirect Participant through which such Beneficial Owner holds its interests, to exercise any rights of a holder of Shares.

Conveyance of all notices, statements, and other communications to Beneficial Owners is effected as follows. DTC will make available to the Trust upon request and for a fee a listing of Shares held by each DTC Participant. The Trust shall obtain from each such DTC Participant the number of Beneficial Owners holding Shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement, or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Share distributions shall be made to DTC or its nominee, Cede & Co., as the registered holder of all Shares. DTC or its nominee, upon receipt of any such distributions, shall credit immediately DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in the Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of Shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a "street name," and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in Shares, or for maintaining, supervising, or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants.

DTC may determine to discontinue providing its service with respect to the Fund at any time by giving reasonable notice to the Fund and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Fund shall take action either to find a replacement for DTC to perform its functions at a comparable cost or, if such replacement is unavailable, to issue and deliver printed certificates representing ownership of Shares, unless the Trust makes other arrangements with respect thereto satisfactory to the Exchange.

PURCHASE AND REDEMPTION OF SHARES IN CREATION UNITS

The Trust issues and redeems Shares only in Creation Units on a continuous basis through the Transfer Agent, without a sales load (but subject to transaction fees, if applicable), at their NAV per share next determined after receipt of an order, on any Business Day, in proper form pursuant to the terms of the Authorized Participant Agreement ("Participant Agreement"). The NAV of Shares is calculated each business day as of the scheduled close of regular trading on the NYSE, generally 4:00 p.m., Eastern time. The Fund will not issue fractional Creation Units. A "Business Day" is any day on which the NYSE is open for business.

Fund Deposit. The consideration for purchase of a Creation Unit of the Fund generally consists of the in-kind deposit of a designated portfolio of securities (the "Deposit Securities") per each Creation Unit and the Cash Component (defined below), computed as described below. Notwithstanding the foregoing, the Fund reserves the right to permit or require the substitution of a "cash in lieu" amount ("Deposit Cash") to be added to the Cash Component to replace any Deposit Security. When accepting purchases of Creation Units for all or a portion of Deposit Cash, the Fund may incur additional costs associated with the acquisition of Deposit Securities that would otherwise be provided by an in-kind purchaser.

Together, the Deposit Securities or Deposit Cash, as applicable, and the Cash Component constitute the "Fund Deposit," which represents the minimum initial and subsequent investment amount for a Creation Unit of the Fund. The "Cash Component" is an amount equal to the difference between the NAV of Shares (per Creation Unit) and the value of the Deposit Securities or Deposit Cash, as applicable. If the Cash Component is a positive number (*i.e.*, the NAV per Creation Unit exceeds the value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component shall be such positive amount. If the Cash Component is a negative number (*i.e.*, the NAV per Creation Unit is less than the value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component shall be such negative amount and the creator will be entitled to receive cash in an amount equal to the Cash Component. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit and the value of the Deposit Securities or Deposit Cash, as applicable. Computation of the Cash Component excludes any stamp duty or other similar fees and expenses payable upon transfer of beneficial ownership of the Deposit Securities, if applicable, which shall be the sole responsibility of the Authorized Participant (as defined below).

The Fund, through NSCC, makes available on each Business Day, prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time), the list of the names and the required number of shares of each Deposit Security or the required amount of Deposit Cash, as applicable, to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for the Fund. Such Fund Deposit is subject to any applicable adjustments as described below, to effect purchases of Creation Units of the Fund until such time as the next-

announced composition of the Deposit Securities or the required amount of Deposit Cash, as applicable, is made available.

The identity and number of Shares of the Deposit Securities or the amount of Deposit Cash, as applicable, required for a Fund Deposit for the Fund changes as rebalancing adjustments and corporate action events are reflected from time to time by the Adviser with a view to the investment objective of the Fund.

The Fund reserves the right to permit or require the substitution of Deposit Cash to replace any Deposit Security, which shall be added to the Cash Component, including, without limitation, in situations where the Deposit Security: (i) may not be available in sufficient quantity for delivery; (ii) may not be eligible for transfer through the systems of DTC for corporate securities and municipal securities; (iii) may not be eligible for trading by an Authorized Participant (as defined below) or the investor for which it is acting; (iv) would be restricted under the securities laws or where the delivery of the Deposit Security to the Authorized Participant would result in the disposition of the Deposit Security by the Authorized Participant becoming restricted under the securities laws; or (v) in certain other situations.

Procedures for Purchase of Creation Units. To be eligible to place orders with the Transfer Agent to purchase a Creation Unit of the Fund, an entity must be (i) a “Participating Party” (*i.e.*, a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the NSCC (the “Clearing Process”)), a clearing agency that is registered with the SEC; or (ii) a DTC Participant (see “Book Entry Only System”). In addition, each Participating Party or DTC Participant (each, an “Authorized Participant”) must execute a Participant Agreement that has been agreed to by the Distributor, and that has been accepted by the Transfer Agent, with respect to purchases and redemptions of Creation Units. Each Authorized Participant will agree, pursuant to the terms of a Participant Agreement, on behalf of itself or any investor on whose behalf it will act, to certain conditions, including that it will pay to the Trust, an amount of cash sufficient to pay the Cash Component together with the creation transaction fee (described below), if applicable, and any other applicable fees and taxes.

All orders to purchase Shares directly from the Fund must be placed for one or more Creation Units and in the manner set forth in the Participant Agreement. The order cut-off time for the Fund for orders to purchase Creation Units is 4:00 p.m. Eastern time, which time may be modified by the Fund from time-to-time. The date on which an order to purchase Creation Units (or an order to redeem Creation Units, as set forth below) is received and accepted is referred to as the “Order Placement Date.”

An Authorized Participant may require an investor to make certain representations or enter into agreements with respect to the order (*e.g.*, to provide for payments of cash, when required). Investors should be aware that their particular broker may not have executed a Participant Agreement and that, therefore, orders to purchase Shares directly from the Fund in Creation Units have to be placed by the investor’s broker through an Authorized Participant that has executed a Participant Agreement. In such cases there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement and only a small number of such Authorized Participants may have international capabilities.

On days when the Exchange closes earlier than normal, the Fund may require orders to create Creation Units to be placed earlier in the day. In addition, if a market or markets on which the Fund’s investments are primarily traded is closed, the Fund will also generally not accept orders on such day(s). Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Transfer Agent pursuant to procedures set forth in the Participant Agreement and in accordance with the applicable order form. On behalf of the Fund, the Transfer Agent will notify the Custodian of such order. The Custodian will then provide such information to the appropriate local sub-custodian(s). Those placing orders through an Authorized Participant should allow sufficient time to permit proper submission of the purchase order to the Transfer Agent by the cut-off time on such Business Day. Economic or market disruptions or changes, or telephone or other communication failure may impede the ability to reach the Transfer Agent or an Authorized Participant.

Fund Deposits must be delivered by an Authorized Participant through the Federal Reserve System (for cash) or through DTC (for corporate securities), through a subcustody agent (for foreign securities), and/or through such other arrangements allowed by the Trust or its agents. With respect to foreign Deposit Securities, the Custodian shall cause the subcustodian of the Fund to maintain an account into which the Authorized Participant shall deliver, on behalf of itself or the party on whose behalf it is acting, such Deposit Securities (or Deposit Cash for all or a part of

such securities, as permitted or required), with any appropriate adjustments as advised by the Trust. Foreign Deposit Securities must be delivered to an account maintained at the applicable local subcustodian. The Fund Deposit transfer must be ordered by the Authorized Participant in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities or Deposit Cash, as applicable, to the account of the Fund or its agents by no later than 12:00 p.m. Eastern time (or such other time as specified by the Trust) on the Settlement Date. If the Fund or its agents do not receive all of the Deposit Securities, or the required Deposit Cash in lieu thereof, by such time, then the order may be deemed rejected and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. The typical Settlement Date for each purchase transaction will be within one day of the Order Placement Date (commonly referred to as “T+1”), unless the Fund and Authorized Participant agree to a different timeline for settlement or the transaction is exempt from the requirements of Rule 15c6-1 under the 1934 Act. Due to the schedule of holidays in certain countries, however, the delivery of Shares may take longer than one Business Day following the day on which the purchase order is received. In such cases, the local market settlement procedures will not commence until the end of local holiday periods. All questions as to the number of Deposit Securities or Deposit Cash to be delivered, as applicable, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities or cash, as applicable, will be determined by the Trust, whose determination shall be final and binding. The amount of cash represented by the Cash Component must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than the Settlement Date. If the Cash Component and the Deposit Securities or Deposit Cash, as applicable, are not received by the Custodian in a timely manner by the Settlement Date, the creation order may be cancelled. Upon written notice to the Transfer Agent, such canceled order may be resubmitted the following Business Day using a Fund Deposit as newly constituted to reflect the then current NAV of the Fund.

The order shall be deemed to be received on the Business Day on which the order is placed provided that the order is placed in proper form prior to the applicable cut-off time and the federal funds in the appropriate amount are deposited with the Custodian on the Settlement Date. If the order is not placed in proper form as required, or federal funds in the appropriate amount are not received on the Settlement Date, then the order may be deemed to be rejected and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. A creation request is considered to be in “proper form” if all procedures set forth in the Participant Agreement, order form and this SAI are properly followed.

Issuance of a Creation Unit. Except as provided in this SAI, Creation Units will not be issued until the transfer of good title to the Trust of the Deposit Securities or payment of Deposit Cash, as applicable, and the payment of the Cash Component have been completed. When the subcustodian has confirmed to the Custodian that the required Deposit Securities (or the cash value thereof) have been delivered to the account of the relevant subcustodian or subcustodians, the Transfer Agent and the Adviser shall be notified of such delivery, and the Trust will issue and cause the delivery of the Creation Units. The delivery of Creation Units so created generally will occur no later than the next Business Day following the day on which the purchase order is deemed received by the Transfer Agent, as discussed above. The Authorized Participant shall be liable to the Fund for losses, if any, resulting from unsettled orders.

Creation Units may be purchased in advance of receipt by the Trust of all or a portion of the applicable Deposit Securities as described below. In these circumstances, the initial deposit will have a value greater than the NAV of Shares on the date the order is placed in proper form since, in addition to available Deposit Securities, cash must be deposited in an amount equal to the sum of (i) the Cash Component, plus (ii) an additional amount of cash equal to a percentage of the value as set forth in the Participant Agreement, of the undelivered Deposit Securities (the “Additional Cash Deposit”), which shall be maintained in a separate non-interest bearing collateral account. The Authorized Participant must deposit with the Custodian the Additional Cash Deposit, as applicable, by 12:00 p.m. Eastern time (or such other time as specified by the Trust) on the Settlement Date. If the Fund or its agents do not receive the Additional Cash Deposit in the appropriate amount, by such time, then the order may be deemed rejected and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. An additional amount of cash shall be required to be deposited with the Trust, pending delivery of the missing Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal to the applicable percentage, as set forth in the Participant Agreement, of the daily market value of the missing Deposit Securities. The Participant Agreement will permit the Trust to buy the missing Deposit Securities at any time. Authorized Participants will be liable to the Trust for the costs incurred by the Trust in connection with any such

purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the value of such Deposit Securities on the day the purchase order was deemed received by the Transfer Agent plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing Deposit Securities have been properly received by the Custodian or purchased by the Trust and deposited into the Trust. In addition, a transaction fee, as described below under “Creation Transaction Fee,” may be charged. The delivery of Creation Units so created generally will occur no later than the Settlement Date.

Acceptance of Orders of Creation Units. The Fund reserves the right to reject an order for Creation Units transmitted to it by the Transfer Agent with respect to the Fund including, without limitation, if (a) the order is not in proper form; (b) the Deposit Securities or Deposit Cash, as applicable, delivered by the Participant are not as disseminated through the facilities of the NSCC for that date by the Custodian; (c) the investor(s), upon obtaining Shares ordered, would own 80% or more of the currently outstanding Shares; (d) the acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (e) the acceptance or receipt of the order for a Creation Unit would, in the opinion of counsel to the Trust, be unlawful; or (f) in the event that circumstances outside the control of the Trust, the Custodian, the Transfer Agent and/or the Adviser make it for all practical purposes not feasible to process orders for Creation Units.

Examples of such circumstances include acts of God or public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, the Distributor, the Custodian, a sub-custodian, the Transfer Agent, DTC, NSCC, Federal Reserve System, or any other participant in the creation process, and other extraordinary events. The Transfer Agent shall notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of the creator of a Creation Unit of its rejection of the order of such person. The Trust, the Transfer Agent, the Custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor shall either of them incur any liability for the failure to give any such notification. The Trust, the Transfer Agent, the Custodian and the Distributor shall not be liable for the rejection of any purchase order for Creation Units.

All questions as to the number of Shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust, and the Trust’s determination shall be final and binding.

Creation Transaction Fee. A fixed purchase (*i.e.*, creation) transaction fee, payable to the Fund’s custodian, may be imposed for the transfer and other transaction costs associated with the purchase of Creation Units (“Creation Order Costs”). The standard fixed creation transaction fee for the Fund is \$300, regardless of the number of Creation Units created in the transaction. The Fund may adjust the standard fixed creation transaction fee from time to time. The fixed creation fee may be waived on certain orders if the Fund’s custodian has determined to waive some or all of the Creation Order Costs associated with the order or another party, such as the Adviser, has agreed to pay such fee.

In addition, a variable fee, payable to the Fund, of up to a maximum of 2% of the value of the Creation Units subject to the transaction may be imposed for cash purchases, non-standard orders, or partial cash purchases of Creation Units. The variable charge is primarily designed to cover additional costs (*e.g.*, brokerage, taxes) involved with buying the securities with cash. The Fund may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders, *e.g.*, for creation orders that facilitate the rebalance of the Fund’s portfolio in a more tax efficient manner than could be achieved without such order.

Investors who use the services of a broker or other such intermediary may be charged a fee for such services. Investors are responsible for the fixed costs of transferring the Fund Securities from the Trust to their account or on their order.

Risks of Purchasing Creation Units. There are certain legal risks unique to investors purchasing Creation Units directly from the Fund. Because Shares may be issued on an ongoing basis, a “distribution” of Shares could be occurring at any time. Certain activities that a shareholder performs as a dealer could, depending on the

circumstances, result in the shareholder being deemed a participant in the distribution in a manner that could render the shareholder a statutory underwriter and subject to the prospectus delivery and liability provisions of the Securities Act. For example, a shareholder could be deemed a statutory underwriter if it purchases Creation Units from the Fund, breaks them down into the constituent shares, and sells those shares directly to customers, or if a shareholder chooses to couple the creation of a supply of new Shares with an active selling effort involving solicitation of secondary-market demand for Shares. Whether a person is an underwriter depends upon all of the facts and circumstances pertaining to that person's activities, and the examples mentioned here should not be considered a complete description of all the activities that could cause you to be deemed an underwriter.

Dealers who are not "underwriters" but are participating in a distribution (as opposed to engaging in ordinary secondary-market transactions), and thus dealing with Shares as part of an "unsold allotment" within the meaning of Section 4(a)(3)(C) of the Securities Act, will be unable to take advantage of the prospectus delivery exemption provided by Section 4(a)(3) of the Securities Act.

Redemption. Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by the Fund through the Transfer Agent and only on a Business Day. EXCEPT UPON LIQUIDATION OF THE FUND, THE FUND WILL NOT REDEEM SHARES IN AMOUNTS LESS THAN CREATION UNITS. Investors must accumulate enough Shares in the secondary market to constitute a Creation Unit to have such Shares redeemed by the Trust. There can be no assurance, however, that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit. Investors should expect to incur brokerage and other costs in connection with assembling a sufficient number of Shares to constitute a redeemable Creation Unit.

With respect to the Fund, the Custodian, through the NSCC, makes available prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time) on each Business Day, the list of the names and Share quantities of the Fund's portfolio securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form (as defined below) on that day ("Fund Securities"). Fund Securities received on redemption may not be identical to Deposit Securities.

Redemption proceeds for a Creation Unit are paid either in-kind or in cash, or combination thereof, as determined by the Trust. With respect to in-kind redemptions of the Fund, redemption proceeds for a Creation Unit will consist of Fund Securities - as announced by the Custodian on the Business Day of the request for redemption received in proper form plus cash in an amount equal to the difference between the NAV of Shares being redeemed, as next determined after a receipt of a request in proper form, and the value of the Fund Securities (the "Cash Redemption Amount"), less a fixed redemption transaction fee, as applicable, as set forth below. In the event that the Fund Securities have a value greater than the NAV of Shares, a compensating cash payment equal to the differential is required to be made by or through an Authorized Participant by the redeeming shareholder. Notwithstanding the foregoing, at the Trust's discretion, an Authorized Participant may receive the corresponding cash value of the securities in lieu of the in-kind securities value representing one or more Fund Securities.

Redemption Transaction Fee. A fixed redemption transaction fee, payable to the Fund's custodian, may be imposed for the transfer and other transaction costs associated with the redemption of Creation Units ("Redemption Order Costs"). The standard fixed redemption transaction fee for the Fund is \$300, regardless of the number of Creation Units redeemed in the transaction. The Fund may adjust the redemption transaction fee from time to time. The fixed redemption fee may be waived on certain orders if the Fund's custodian has determined to waive some or all of the Redemption Order Costs associated with the order or another party, such as the Adviser, has agreed to pay such fee.

In addition, a variable fee, payable to the Fund, of up to a maximum of 2% of the value of the Creation Units subject to the transaction may be imposed for cash redemptions, non-standard orders, or partial cash redemptions (when cash redemptions are available) of Creation Units. The variable charge is primarily designed to cover additional costs (e.g., brokerage, taxes) involved with selling portfolio securities to satisfy a cash redemption. The Fund may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders, e.g., for redemption orders that facilitate the rebalance of the Fund's portfolio in a more tax efficient manner than could be achieved without such order.

Investors who use the services of a broker or other such intermediary may be charged a fee for such services. Investors are responsible for the fixed costs of transferring the Fund Securities from the Trust to their account or on their order.

Procedures for Redemption of Creation Units. Orders to redeem Creation Units must be submitted in proper form to the Transfer Agent prior to 4:00 p.m. Eastern time. A redemption request is considered to be in “proper form” if (i) an Authorized Participant has transferred or caused to be transferred to the Trust’s Transfer Agent the Creation Unit(s) being redeemed through the book-entry system of DTC so as to be effective by the time as set forth in the Participant Agreement and (ii) a request in form satisfactory to the Trust is received by the Transfer Agent from the Authorized Participant on behalf of itself or another redeeming investor within the time periods specified in the Participant Agreement. If the Transfer Agent does not receive the investor’s Shares through DTC’s facilities by the times and pursuant to the other terms and conditions set forth in the Participant Agreement, the redemption request shall be rejected.

The Authorized Participant must transmit the request for redemption, in the form required by the Trust, to the Transfer Agent in accordance with procedures set forth in the Participant Agreement. Investors should be aware that their particular broker may not have executed a Participant Agreement, and that, therefore, requests to redeem Creation Units may have to be placed by the investor’s broker through an Authorized Participant who has executed a Participant Agreement. Investors making a redemption request should be aware that such request must be in the form specified by such Authorized Participant. Investors making a request to redeem Creation Units should allow sufficient time to permit proper submission of the request by an Authorized Participant and transfer of Shares to the Trust’s Transfer Agent; such investors should allow for the additional time that may be required to effect redemptions through their banks, brokers or other financial intermediaries if such intermediaries are not Authorized Participants.

Additional Redemption Procedures. In connection with taking delivery of Shares of Fund Securities upon redemption of Creation Units, a redeeming shareholder or Authorized Participant acting on behalf of such shareholder must maintain appropriate custody arrangements with a qualified broker-dealer, bank, or other custody providers in each jurisdiction in which any of the Fund Securities are customarily traded, to which account such Fund Securities will be delivered. The typical Settlement Date for each redemption transaction will be within one day of the Order Placement Date (or T+1), unless the Fund and Authorized Participant agree to a different timeline for settlement or the transaction is exempt from the requirements of Rule 15c6-1 under the 1934 Act. Due to the schedule of holidays in certain countries, however, the receipt of redemption proceeds may take longer than one Business Day following the day on which the purchase order is received. In such cases, the local market settlement procedures will not commence until the end of local holiday periods.

The Trust may in its discretion exercise its option to redeem such Shares in cash, and the redeeming investor will be required to receive its redemption proceeds in cash. In addition, an investor may request a redemption in cash that the Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its Shares based on the NAV of Shares next determined after the redemption request is received in proper form (minus a redemption transaction fee, if applicable, and additional charge for requested cash redemptions specified above, to offset the Trust’s brokerage and other transaction costs associated with the disposition of Fund Securities). The Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities that differs from the exact composition of the Fund Securities but does not differ in NAV.

Redemptions of Shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and the Fund (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Units for cash to the extent that the Trust could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws. An Authorized Participant or an investor for which it is acting subject to a legal restriction with respect to a particular security included in the Fund Securities applicable to the redemption of Creation Units may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming investor of Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment. Further, an Authorized Participant that is not a “qualified institutional buyer” (“QIB”), as such term is defined under Rule 144A of the Securities Act, will not be able to receive Fund Securities that are restricted securities eligible for resale under Rule 144A. An Authorized Participant may be required by the Trust to provide a written confirmation with respect to QIB status to receive Fund Securities.

Because the portfolio securities of the Fund may trade on other exchanges on days that the Exchange is closed or are otherwise not Business Days for the Fund, shareholders may not be able to redeem their Shares, or to purchase or sell Shares on the Exchange, on days when the NAV of the Fund could be significantly affected by events in the relevant foreign markets.

The right of redemption may be suspended or the date of payment postponed with respect to the Fund (1) for any period during which the Exchange is closed (other than customary weekend and holiday closings); (2) for any period during which trading on the Exchange is suspended or restricted; (3) for any period during which an emergency exists as a result of which disposal of Shares or determination of the NAV of Shares is not reasonably practicable; or (4) in such other circumstance as is permitted by the SEC.

DESCRIPTION OF SHARES, VOTING RIGHTS AND LIABILITIES

Shares of the Fund, when issued and paid for in accordance with the Prospectus, will be fully paid and non-assessable shares, with equal voting rights. Each share of the Fund is entitled to participate in dividends and other distributions as determined by the Board. Each share is entitled to the residual assets of the Fund in the event of liquidation.

Shares of the Fund entitle holders to one vote per share and fractional votes for fractional shares held. Shares have non-cumulative voting rights with respect to election of Trustees, do not have preemptive or subscription rights and are transferable.

The Fund does not hold annual meetings of shareholders. A meeting of shareholders for the purpose of voting upon the question of removal of any Trustee may be called upon the demand of shareholders owning not less than 10% of the Trust's outstanding shares. Except when a larger quorum is required by the applicable provisions of the 1940 Act, forty percent (40%) of the shares entitled to vote on a matter constitutes a quorum at a meeting of shareholders. Generally, subject to the 1940 Act and the specific provisions of the Amended and Restated Agreement and Declaration of Trust, as amended (the "Declaration of Trust"), when a quorum is present at any meeting, a majority of the shares voted will decide any questions, except only a plurality vote is necessary to elect Trustees.

The Fund may involuntarily redeem a shareholder's shares if the shareholder owns shares of the Fund having an aggregate NAV of less than a minimum value determined from time to time by the Trustees. In addition, the Trust may call for the redemption of shares of any shareholder or may refuse to transfer or issue shares to any person to the extent that the same is necessary to comply with applicable law or advisable to further the purpose for which the Trust was established, including circumstances involving frequent or excessive trading in shares of the Fund. The Declaration of Trust also provides that if an officer or agent of the Trust has determined that a shareholder has engaged in frequent and excessive trading in shares of the Fund, the Trust may require the shareholder to redeem his or her shares.

The Trust may cause, to the extent consistent with applicable law: (a) the Trust or one or more of its series to be merged into or consolidated with another trust, series of another trust or other person; (b) the shares of the Trust or any of its series to be converted into beneficial interests in another trust or series thereof; (c) the shares to be exchanged for assets or property under or pursuant to any state or federal statute to the extent permitted by law; or (d) a sale of assets of the Trust or one or more of its series. Such merger or consolidation, share conversion, share exchange or sale of assets must be authorized by a majority of the shares voted when a quorum is present, provided that in all respects not governed by statute or applicable law, the Trustees have power to prescribe the procedure necessary or appropriate to accomplish a merger or consolidation, share conversion, share exchange, or sale of assets, including the power to create one or more separate trusts to which all or any part of the assets, liabilities, profits or losses of the Trust may be transferred and to provide for the conversion of shares of the Trust or any of its series into beneficial interests in such separate business trust or trusts or series thereof.

Notwithstanding the foregoing paragraph, the Declaration of Trust provides that the Trustees may, without the vote or consent of shareholders, cause to be organized or assist in organizing a corporation or corporations under the laws of any jurisdiction, or any trust, partnership, limited liability company, association or other organization, or any series or class of any thereof (including any series, or class of any series, of the Trust), to acquire all or a portion of the Trust property (or all or a portion of the Trust property held with respect to the Fund or allocable to a particular class) or to carry on any business in which the Trust directly or indirectly has any interest (any of the foregoing, a "Successor Entity"), and to sell, convey and transfer Trust property to any such Successor Entity in exchange for the

shares or securities thereof or otherwise, and to lend money to, subscribe for the shares or securities of, and enter into any contracts with any such Successor Entity in which the Trust holds or is about to acquire shares or any other interest. The Trustees may also, without the vote or consent of shareholders, cause a merger or consolidation between the Trust and any Successor Entity if and to the extent permitted by law. However, the Declaration of Trust provides that the Trustees shall provide written notice to affected shareholders of each such transaction. Such transactions may be effected through share-for-share exchanges, transfers or sales of assets, in-kind redemptions and purchases, exchange offers, or any other method approved by the Trustees.

The Declaration of Trust provides that no shareholder shall have the right to bring or maintain any court action, proceeding or claim in the right of the Trust or the Fund or a class thereof to recover a judgment in its favor unless (a) shareholders holding at least ten percent (10%) of the outstanding shares of the Trust, the Fund or class, as applicable, join in the bringing of such court action, proceeding or claim; and (b) the bringing or maintenance of such court action, proceeding or claim is otherwise in accordance with Section 3816 of the Delaware Statutory Trust Act, subject to certain additional requirements.

The Declaration of Trust provides that by virtue of becoming a shareholder of the Fund, each shareholder will be held to have expressly assented and agreed to the terms of the Declaration of Trust, the By-Laws of the Trust and the resolutions of the Board.

The Declaration of Trust provides that the Trust will indemnify and hold harmless each Trustee and officer of the Trust and each former Trustee and officer of the Trust (each hereinafter referred to as a "Covered Person") from and against any and all claims, demands, costs, losses, expenses, and damages whatsoever arising out of or related to such Covered Person's performance of his or her duties as a Trustee or officer of the Trust or otherwise relating to any act, omission, or obligation of the Trust, if, as to liability to the Trust or its investors, it is finally adjudicated that the Covered Person was not liable by reason of willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the Covered Person's offices. In the case of settlement, such indemnification will be provided if it has been determined by a court or other body approving the settlement or other disposition, or by a reasonable determination, based upon a review of readily available facts (as opposed to a full trial type inquiry), by vote of a majority of Independent Trustees of the Trust, or in a written opinion of independent counsel, that such officers or Trustees have not engaged in willful misfeasance, bad faith, gross negligence or reckless disregard of their duties. Rights to indemnification or insurance cannot be limited retroactively.

The Declaration of Trust further provides that: (i) the appointment, designation or identification of a Trustee as chairperson of the Board or a member or chairperson of a committee of the Trustees, an expert on any topic or in any area (including an audit committee financial expert), or the lead Independent Trustee, or any other special appointment, designation or identification of a Trustee, shall not impose on that individual any duty, obligation or liability that is greater than the duties, obligations and liability imposed on that person as a Trustee in the absence of the appointment, designation or identification (except with respect to duties expressly imposed pursuant to the By-Laws of the Trust, a committee charter or a Trust policy statement); (ii) no Trustee who has special skills or expertise, or is appointed, designated or identified shall be held to a higher standard of care by virtue thereof; and (iii) no appointment, designation or identification of a Trustee shall affect in any way that Trustee's rights or entitlement to indemnification.

Under the Declaration of Trust, the Trustees have the power to liquidate the Fund without shareholder approval. While the Trustees have no present intention of exercising this power, they may do so for such reasons as may be determined by the Board.

DETERMINATION OF NAV

NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (*i.e.*, the value of its total assets less total liabilities) by the total number of Shares outstanding, rounded to the nearest cent. Expenses and fees, including the management fees, are accrued daily and taken into account for purposes of determining NAV. The NAV is calculated by Fund Services and determined at the scheduled close of the regular trading session on the NYSE (ordinarily 4:00 p.m., Eastern time) on each day that the NYSE is open, provided that fixed income assets may be valued as of the announced closing time for trading in fixed income instruments on any day that the Securities Industry and Financial Markets Association ("SIFMA") announces an early closing time.

Pursuant to Rule 2a-5 under the 1940 Act, the Board has appointed the Adviser as the Fund's valuation designee (the "Valuation Designee") to perform all fair valuations of the Fund's portfolio investments, subject to the Board's oversight. As the Valuation Designee, the Adviser has established procedures for its fair valuation of the Fund's portfolio investments. These procedures address, among other things, determining when market quotations are not readily available or reliable and the methodologies to be used for determining the fair value of investments, as well as the use and oversight of third-party pricing services for fair valuation. The Adviser's fair value determinations will be carried out in compliance with Rule 2a-5 and based on fair value methodologies established and applied by the Adviser and periodically tested to ensure such methodologies are appropriate and accurate with respect to the Fund's portfolio investments. The Adviser's fair value methodologies may involve obtaining inputs and prices from third-party pricing services.

In calculating the Fund's NAV per Share, the Fund's investments are generally valued using market quotations to the extent such market quotations are readily available. If market quotations are not readily available or are deemed to be unreliable by the Adviser, the Adviser will fair value such investments and use the fair value to calculate the Fund's NAV. When fair value pricing is employed, the prices of securities used by the Adviser to calculate the Fund's NAV may differ from quoted or published prices for the same securities. Due to the subjective and variable nature of fair value pricing, it is possible that the fair value determined for a particular security may be materially different (higher or lower) from the price of the security quoted or published by others, or the value when trading resumes or is realized upon its sale. There may be multiple methods that can be used to value a portfolio investment when market quotations are not readily available. The value established for any portfolio investment at a point in time might differ from what would be produced using a different methodology or if it had been priced using market quotations.

DIVIDENDS AND DISTRIBUTIONS

The following information supplements and should be read in conjunction with the section in the Prospectus entitled "Dividends, Distributions, and Taxes."

General Policies. Dividends from net investment income, if any, are declared and paid at least annually by the Fund. Distributions of net realized securities gains, if any, generally are declared and paid once a year, but the Fund may make distributions on a more frequent basis to comply with the distribution requirements of the Code to preserve the Fund's eligibility for treatment as a RIC, in all events in a manner consistent with the provisions of the 1940 Act.

Dividends and other distributions on Shares are distributed, as described below, on a pro rata basis to Beneficial Owners of such Shares. Dividend payments are made through DTC Participants and Indirect Participants to Beneficial Owners then of record with proceeds received from the Trust.

The Fund makes additional distributions to the extent necessary (i) to distribute the entire annual taxable income of the Fund, plus any net capital gains and (ii) to avoid imposition of the excise tax imposed by Section 4982 of the Code. Management of the Trust reserves the right to declare special dividends if, in its reasonable discretion, such action is necessary or advisable to preserve the Fund's eligibility for treatment as a RIC or to avoid imposition of income or excise taxes on undistributed income.

Dividend Reinvestment Service. The Trust will not make the DTC book-entry dividend reinvestment service available for use by Beneficial Owners for reinvestment of their cash proceeds, but certain individual broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by Beneficial Owners of the Fund through DTC Participants for reinvestment of their dividend distributions. Investors should contact their brokers to ascertain the availability and description of these services. Beneficial Owners should be aware that each broker may require investors to adhere to specific procedures and timetables to participate in the dividend reinvestment service and investors should ascertain from their brokers such necessary details. If this service is available and used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole Shares issued by the Trust of the Fund at NAV per Share. Distributions reinvested in additional Shares will nevertheless be taxable to Beneficial Owners acquiring such additional Shares to the same extent as if such distributions had been received in cash.

FEDERAL INCOME TAXES

The following is only a summary of certain U.S. federal income tax considerations generally affecting the Fund and its shareholders that supplements the discussion in the Prospectus. No attempt is made to present a comprehensive explanation of the federal, state, local or foreign tax treatment of the Fund or its shareholders, and the discussion here and in the Prospectus is not intended to be a substitute for careful tax planning.

The following general discussion of certain U.S. federal income tax consequences is based on provisions of the Code and the regulations issued thereunder as in effect on the date of this SAI. New legislation, as well as administrative changes or court decisions, may significantly change the conclusions expressed herein, and may have a retroactive effect with respect to the transactions contemplated herein.

Shareholders are urged to consult their own tax advisers regarding the application of the provisions of tax law described in this SAI in light of the particular tax situations of the shareholders and regarding specific questions as to federal, state, local or foreign taxes.

Taxation of the Fund. The Fund has elected and intends to continue to qualify each year to be treated as a separate RIC under Section 851 of the Code. As such, the Fund generally should not be subject to federal income taxes on its net investment income and net capital gains, if any, to the extent that it timely distributes such income and capital gains to its shareholders. To qualify for treatment as a RIC, the Fund must distribute annually to its shareholders at least the sum of 90% of its net investment income (generally including the excess of net short-term capital gains over net long-term capital losses) and 90% of its net tax-exempt interest income, if any (the “Distribution Requirement”) and also must meet several additional requirements. Among these requirements are the following: (i) at least 90% of the Fund’s gross income each taxable year must be derived from dividends, interest, payments with respect to certain securities loans, gains from the sale or other disposition of stock, securities or foreign currencies, or other income derived with respect to its business of investing in such stock, securities or foreign currencies and net income derived from interests in qualified publicly traded partnerships (the “Qualifying Income Requirement”); and (ii) at the close of each quarter of the Fund’s taxable year, the Fund’s assets must be diversified so that (a) at least 50% of the value of the Fund’s total assets is represented by cash and cash items, U.S. government securities, securities of other RICs, and other securities, with such other securities limited, in respect to any one issuer, to an amount not greater in value than 5% of the value of the Fund’s total assets and to not more than 10% of the outstanding voting securities of such issuer, including the equity securities of a qualified publicly traded partnership, and (b) not more than 25% of the value of the Fund’s total assets is invested, including through corporations in which the Fund owns a 20% or more voting stock interest, in the securities of (1) any one issuer (other than U.S. government securities or securities of other RICs), (2) the securities (other than securities of other RICs) of two or more issuers which the Fund controls and which are engaged in the same, similar, or related trades or businesses, or (3) the securities of one or more qualified publicly traded partnerships (the “Diversification Requirement”).

To the extent the Fund makes investments that may generate income that is not qualifying income, including certain derivatives, the Fund will seek to restrict the resulting income from such investments so that the Fund’s non-qualifying income does not exceed 10% of its gross income.

Although the Fund intends to distribute substantially all of its net investment income and may distribute its capital gains for any taxable year, the Fund will be subject to federal income taxation and excise tax to the extent any such income or gains are not distributed. The Fund is treated as a separate corporation for federal income tax purposes. The Fund therefore is considered to be a separate entity in determining its treatment under the rules for RICs described herein. The requirements (other than certain organizational requirements) for qualifying RIC status are determined at the Fund level rather than at the Trust level.

If the Fund fails to satisfy the Qualifying Income Requirement or the Diversification Requirement in any taxable year, the Fund may be eligible for relief provisions if the failures are due to reasonable cause and not willful neglect, and if a penalty tax is paid with respect to each failure to satisfy the applicable requirements. Additionally, relief is provided for certain *de minimis* failures of the Diversification Requirement where the Fund corrects the failure within a specified period of time. To be eligible for the relief provisions with respect to a failure to meet the Diversification Requirement, the Fund may be required to dispose of certain assets. If these relief provisions were not available to the Fund and it were to fail to qualify for treatment as a RIC for a taxable year, all of its taxable income would be subject to tax at the regular 21% corporate rate without any deduction for distributions to shareholders, and its distributions (including capital gains distributions) generally would be taxable to the shareholders of the Fund as ordinary income dividends, subject to the dividends received deduction for corporate

shareholders and the lower tax rates on qualified dividend income received by non-corporate shareholders, subject to certain limitations. To requalify for treatment as a RIC in a subsequent taxable year, the Fund would be required to satisfy the RIC qualification requirements for that year and to distribute any earnings and profits from any year in which the Fund failed to qualify for tax treatment as a RIC. If the Fund failed to qualify as a RIC for a period greater than two taxable years, it would generally be required to pay a Fund-level tax on certain net built in gains recognized with respect to certain of its assets upon disposition of such assets within five years of qualifying as a RIC in a subsequent year. The Board reserves the right not to maintain the qualification of the Fund for treatment as a RIC if it determines such course of action to be beneficial to shareholders. If the Fund determines that it will not qualify as a RIC, the Fund will establish procedures to reflect the anticipated tax liability in the Fund's NAV.

The Fund may elect to treat part or all of any "qualified late year loss" as if it had been incurred in the succeeding taxable year in determining the Fund's taxable income, net capital gain, net short-term capital gain, and earnings and profits. The effect of this election is to treat any such "qualified late year loss" as if it had been incurred in the succeeding taxable year in characterizing Fund distributions for any calendar year. A "qualified late year loss" generally includes net capital loss, net long-term capital loss, or net short-term capital loss incurred after October 31 of the current taxable year (commonly referred to as "post-October losses") and certain other late-year losses.

Capital losses in excess of capital gains ("net capital losses") are not permitted to be deducted against a RIC's net investment income. Instead, for U.S. federal income tax purposes, potentially subject to certain limitations, the Fund may carry a net capital loss from any taxable year forward indefinitely to offset its capital gains, if any, in years following the year of the loss. To the extent subsequent capital gains are offset by such losses, they will not result in U.S. federal income tax liability to the Fund and may not be distributed as capital gains to its shareholders. Generally, the Fund may not carry forward any losses other than net capital losses. The carryover of capital losses may be limited under the general loss limitation rules if the Fund experiences an ownership change as defined in the Code.

The Fund will be subject to a nondeductible 4% federal excise tax on certain undistributed income if it does not distribute to its shareholders in each calendar year an amount at least equal to 98% of its ordinary income for the calendar year plus 98.2% of its capital gain net income for the one-year period ending on October 31 of that year, subject to an increase for any shortfall in the prior year's distribution. For this purpose, any ordinary income or capital gain net income retained by the Fund and subject to corporate income tax will be considered to have been distributed. The Fund intends to declare and distribute dividends and distributions in the amounts and at the times necessary to avoid the application of the excise tax, but can make no assurances that all such tax liability will be completely eliminated. The Fund may in certain circumstances be required to liquidate Fund investments in order to make sufficient distributions to avoid federal excise tax liability at a time when the investment adviser might not otherwise have chosen to do so, and liquidation of investments in such circumstances may affect the ability of the Fund to satisfy the requirement for qualification as a RIC.

If the Fund meets the Distribution Requirement but retains some or all of its income or gains, it will be subject to federal income tax to the extent any such income or gains are not distributed. The Fund may designate certain amounts retained as undistributed net capital gain in a notice to its shareholders, who (i) will be required to include in income for U.S. federal income tax purposes, as long-term capital gain, their proportionate shares of the undistributed amount so designated, (ii) will be entitled to credit their proportionate shares of the income tax paid by the Fund on that undistributed amount against their federal income tax liabilities and to claim refunds to the extent such credits exceed their tax liabilities, and (iii) will be entitled to increase their tax basis, for federal income tax purposes, in their Shares by an amount equal to the excess of the amount of undistributed net capital gain included in their respective income over their respective income tax credits.

Taxation of Shareholders – Distributions. The Fund intends to distribute annually to its shareholders substantially all of its investment company taxable income (computed without regard to the deduction for dividends paid), its net tax-exempt income, if any, and any net capital gain (net recognized long-term capital gains in excess of net recognized short-term capital losses, taking into account any capital loss carryforwards). The distribution of investment company taxable income (as so computed) and net realized capital gain will be taxable to Fund shareholders regardless of whether the shareholder receives these distributions in cash or reinvests them in additional Shares.

The Fund (or your broker) will report to shareholders annually the amounts of dividends paid from ordinary income, the amount of distributions of net capital gain, the portion of dividends which may qualify for the dividends received

deduction for corporations, and the portion of dividends which may qualify for treatment as qualified dividend income, which, subject to certain limitations and requirements, is taxable to non-corporate shareholders at rates of up to 20%. Distributions from the Fund's net capital gain will be taxable to shareholders at long-term capital gains rates, regardless of how long shareholders have held their Shares.

Qualified dividend income includes, in general and, subject to certain holding period and other requirements, dividend income from taxable domestic corporations and certain foreign corporations. Subject to certain limitations, eligible foreign corporations include those incorporated in possessions of the United States, those incorporated in certain countries with comprehensive tax treaties with the United States, and other foreign corporations if the stock with respect to which the dividends are paid is readily tradable on an established securities market in the United States. Dividends received by the Fund from an ETF, an underlying fund taxable as a RIC, or a REIT may be treated as qualified dividend income generally only to the extent so reported by such ETF, underlying fund, or REIT. If 95% or more of the Fund's gross income (calculated without taking into account net capital gain derived from sales or other dispositions of stock or securities) consists of qualified dividend income, the Fund may report all distributions of such income as qualified dividend income.

Fund dividends will not be treated as qualified dividend income if the Fund does not meet holding period and other requirements with respect to dividend paying stocks in its portfolio, and the shareholder does not meet holding period and other requirements with respect to the Shares on which the dividends were paid. Distributions by the Fund of its net short-term capital gains will be taxable as ordinary income. Distributions from the Fund's net capital gain will be taxable to shareholders at long-term capital gains rates, regardless of how long shareholders have held their Shares. Distributions may be subject to state and local taxes.

In the case of corporate shareholders, certain dividends received by the Fund from U.S. corporations (generally, dividends received by the Fund in respect of any share of stock (1) with a tax holding period of at least 46 days during the 91-day period beginning on the date that is 45 days before the date on which the stock becomes ex-dividend as to that dividend and (2) that is held in an unleveraged position) and distributed and appropriately so reported by the Fund may be eligible for the 50% dividends received deduction. Certain preferred stock must have a holding period of at least 91 days during the 181-day period beginning on the date that is 90 days before the date on which the stock becomes ex-dividend as to that dividend to be eligible. Capital gain dividends distributed to the Fund from REITs and other RICs are not eligible, and dividends distributed to the Fund from REITs are generally not eligible for the 50% dividends received deduction. To qualify for the deduction, corporate shareholders must meet the minimum holding period requirement stated above with respect to their Shares, taking into account any holding period reductions from certain hedging or other transactions or positions that diminish their risk of loss with respect to their Shares, and, if they borrow to acquire or otherwise incur debt attributable to Shares, they may be denied a portion of the dividends received deduction with respect to those Shares.

Although dividends generally will be treated as distributed when paid, any dividend declared by the Fund in October, November or December and payable to shareholders of record in such a month that is paid during the following January will be treated for U.S. federal income tax purposes as received by shareholders on December 31 of the calendar year in which it was declared.

U.S. individuals with adjusted gross income (subject to certain adjustments) exceeding certain threshold amounts (\$250,000 if married filing jointly or if considered a "surviving spouse" for federal income tax purposes, \$125,000 if married filing separately, and \$200,000 in other cases) are subject to a 3.8% tax on all or a portion of their "net investment income," which includes taxable interest, dividends, and certain capital gains (generally including capital gain distributions and capital gains realized on the sale of Shares). This 3.8% tax also applies to all or a portion of the undistributed net investment income of certain shareholders that are estates and trusts.

Shareholders who have not held Shares for a full year should be aware that the Fund may report and distribute, as ordinary dividends or capital gain dividends, a percentage of income that is not equal to the percentage of the Fund's ordinary income or net capital gain, respectively, actually earned during the applicable shareholder's period of investment in the Fund. A taxable shareholder may wish to avoid investing in the Fund shortly before a dividend or other distribution, because the distribution will generally be taxable even though it may economically represent a return of a portion of the shareholder's investment.

To the extent that the Fund makes a distribution of income received by the Fund in lieu of dividends (a “substitute payment”) with respect to securities on loan pursuant to a securities lending transaction, such income will not constitute qualified dividend income to individual shareholders and will not be eligible for the dividends received deduction for corporate shareholders.

If the Fund’s distributions exceed its earnings and profits, all or a portion of the distributions made for a taxable year may be recharacterized as a return of capital to shareholders. A return of capital distribution will generally not be taxable, but will reduce each shareholder’s cost basis in the Fund and result in a higher capital gain or lower capital loss when the Shares on which the distribution was received are sold. After a shareholder’s basis in the Shares has been reduced to zero, distributions in excess of earnings and profits will be treated as gain from the sale of the shareholder’s Shares.

Taxation of Shareholders – Sale or Exchange of Shares. A sale or exchange of Shares may give rise to a gain or loss. For tax purposes, an exchange of your Fund Shares for shares of a different fund is the same as a sale. In general, provided that a shareholder holds Shares as capital assets, any gain or loss realized upon a taxable disposition of Shares will be treated as long-term capital gain or loss if Shares have been held for more than 12 months. Otherwise, the gain or loss on the taxable disposition of Shares will generally be treated as short-term capital gain or loss. Any loss realized upon a taxable disposition of Shares held for six months or less will be treated as long-term capital loss, rather than short-term capital loss, to the extent of any amounts treated as distributions to the shareholder of long-term capital gain (including any amounts credited to the shareholder as undistributed capital gains). All or a portion of any loss realized upon a taxable disposition of Shares may be disallowed if substantially identical Shares are acquired (through the reinvestment of dividends or otherwise) within a 61-day period beginning 30 days before and ending 30 days after the disposition. In such a case, the basis of the newly acquired Shares will be adjusted to reflect the disallowed loss.

The cost basis of Shares acquired by purchase will generally be based on the amount paid for Shares and then may be subsequently adjusted for other applicable transactions as required by the Code. The difference between the selling price and the cost basis of Shares generally determines the amount of the capital gain or loss realized on the sale or exchange of Shares. Contact the broker through whom you purchased your Shares to obtain information with respect to the available cost basis reporting methods and elections for your account.

An Authorized Participant who exchanges securities for Creation Units generally will recognize a gain or a loss. The gain or loss will be equal to the difference between the market value of the Creation Units at the time and the sum of the exchanger’s aggregate basis in the securities surrendered plus the amount of cash paid for such Creation Units. The ability of Authorized Participants to receive a full or partial cash redemption of Creation Units of the Fund may limit the tax efficiency of the Fund. An Authorized Participant who redeems Creation Units will generally recognize a gain or loss equal to the difference between the exchanger’s basis in the Creation Units and the sum of the aggregate market value of any securities received plus the amount of any cash received for such Creation Units. The Internal Revenue Service (“IRS”), however, may assert that a loss realized upon an exchange of securities for Creation Units cannot currently be deducted under the rules governing “wash sales” (for a person who does not mark-to-market its portfolio) or on the basis that there has been no significant change in economic position.

Any capital gain or loss realized upon the creation of Creation Units will generally be treated as long-term capital gain or loss if the securities exchanged for such Creation Units have been held for more than one year. Any capital gain or loss realized upon the redemption of Creation Units will generally be treated as long-term capital gain or loss if Shares comprising the Creation Units have been held for more than one year. Otherwise, such capital gains or losses will generally be treated as short-term capital gains or losses. Any loss upon a redemption of Creation Units held for six months or less may be treated as long-term capital loss to the extent of any amounts treated as distributions to the applicable Authorized Participant of long-term capital gain with respect to the Creation Units (including any amounts credited to the Authorized Participant as undistributed capital gains).

The Trust, on behalf of the Fund, has the right to reject an order for Creation Units if the purchaser (or a group of purchasers) would, upon obtaining the Creation Units so ordered, own 80% or more of the outstanding Shares and if, pursuant to Section 351 of the Code, the Fund would have a basis in the deposit securities different from the market value of such securities on the date of deposit. The Trust also has the right to require the provision of information necessary to determine beneficial Share ownership for purposes of the 80% determination. If the Fund does issue Creation Units to a purchaser (or a group of purchasers) that would, upon obtaining the Creation Units so ordered,

own 80% or more of the outstanding Shares, the purchaser (or a group of purchasers) will not recognize gain or loss upon the exchange of securities for Creation Units.

Authorized Participants purchasing or redeeming Creation Units should consult their own tax advisers with respect to the tax treatment of any creation or redemption transaction and whether the wash sales rule applies and when a loss may be deductible.

Foreign Investments. Dividends and interest received by the Fund from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax treaties between certain countries and the U.S. may reduce or eliminate such taxes.

Backup Withholding. The Fund will be required in certain cases to withhold (as “backup withholding”) on amounts payable to any shareholder who (1) fails to provide a correct taxpayer identification number certified under penalty of perjury; (2) is subject to backup withholding by the IRS for failure to properly report all payments of interest or dividends; (3) fails to provide a certified statement that he or she is not subject to “backup withholding;” or (4) fails to provide a certified statement that he or she is a U.S. person (including a U.S. resident alien). The backup withholding rate is currently 24%. Backup withholding is not an additional tax and any amounts withheld may be credited against the shareholder’s ultimate U.S. tax liability. Backup withholding will not be applied to payments that have been subject to the 30% withholding tax on shareholders who are neither citizens nor permanent residents of the United States.

Non-U.S. Shareholders. Any non-U.S. investors in the Fund may be subject to U.S. withholding and estate tax and are encouraged to consult their tax advisors prior to investing in the Fund. Foreign shareholders (*i.e.*, nonresident alien individuals and foreign corporations, partnerships, trusts and estates) are generally subject to U.S. withholding tax at the rate of 30% (or a lower tax treaty rate) on distributions derived from taxable ordinary income. The Fund may, under certain circumstances, report all or a portion of a dividend as an “interest-related dividend” or a “short-term capital gain dividend,” which would generally be exempt from this 30% U.S. withholding tax, provided certain other requirements are met. Short-term capital gain dividends received by a nonresident alien individual who is present in the U.S. for a period or periods aggregating 183 days or more during the taxable year are not exempt from this 30% withholding tax. Gains realized by foreign shareholders from the sale or other disposition of Shares generally are not subject to U.S. taxation, unless the recipient is an individual who is physically present in the U.S. for 183 days or more per year. Foreign shareholders who fail to provide an applicable IRS form may be subject to backup withholding on certain payments from the Fund. Backup withholding will not be applied to payments that are subject to the 30% (or lower applicable treaty rate) withholding tax described in this paragraph. Different tax consequences may result if the foreign shareholder is engaged in a trade or business within the United States. In addition, the tax consequences to a foreign shareholder entitled to claim the benefits of a tax treaty may be different than those described above.

Unless certain non-U.S. entities that hold Shares comply with IRS requirements that will generally require them to report information regarding U.S. persons investing in, or holding accounts with, such entities, a 30% withholding tax may apply to Fund distributions payable to such entities. A non-U.S. shareholder may be exempt from the withholding described in this paragraph under an applicable intergovernmental agreement between the U.S. and a foreign government, provided that the shareholder and the applicable foreign government comply with the terms of the agreement.

Under legislation generally known as “FATCA” (the Foreign Account Tax Compliance Act), the Fund is required to withhold 30% of certain ordinary dividends it pays to shareholders that fail to meet prescribed information reporting or certification requirements. In general, no such withholding will be required with respect to a U.S. person or non-U.S. person that timely provides the certifications required by the Fund or its agent on a valid IRS Form W-9 or applicable series of IRS Form W-8, respectively. Shareholders potentially subject to withholding under FATCA include foreign financial institutions (“FFIs”), such as non-U.S. investment funds, and non-financial foreign entities (“NFFEs”). To avoid withholding under FATCA, an FFI generally must enter into an information sharing agreement with the IRS in which it agrees to report certain identifying information (including name, address, and taxpayer identification number) with respect to its U.S. account holders (which, in the case of an entity shareholder, may include its direct and indirect U.S. owners), and an NFFE generally must identify and provide other required information to the Fund or other withholding agent regarding its U.S. owners, if any. Such non-U.S. shareholders also may fall into certain exempt, excepted or deemed compliant categories as established by regulations and other

guidance. A non-U.S. shareholder resident or doing business in a country that has entered into an intergovernmental agreement with the United States to implement FATCA will be exempt from FATCA withholding provided that the shareholder and the applicable foreign government comply with the terms of the agreement. A non-U.S. entity that invests in the Fund will need to provide the Fund with documentation properly certifying the entity's status under FATCA in order to avoid FATCA withholding.

Non-U.S. persons are generally subject to U.S. tax on a disposition of a "United States real property interest" (a "USRPI"). Gain on such a disposition is generally referred to as "FIRPTA gain." The Code provides a look-through rule for distributions of so-called FIRPTA gain by the Fund if certain requirements are met. If the look-through rule applies, certain distributions attributable to income received by the Fund, from a REIT, may be treated as gain from the disposition of a USRPI, causing distributions to be subject to U.S. withholding tax at rates of up to 21%, and requiring non-U.S. investors to file nonresident U.S. income tax returns. Also, gain may be subject to a 30% branch profits tax in the hands of a foreign stockholder that is treated as a corporation for federal income tax purposes. Under certain circumstances, Fund shares may qualify as USRPIs, which could result in 15% withholding on certain distributions and gross redemption proceeds paid to certain non-U.S. shareholders.

For foreign shareholders to qualify for an exemption from backup withholding, described above, the foreign shareholder must comply with special certification and filing requirements. Foreign shareholders in the Fund should consult their tax advisors in this regard.

Tax-Exempt Shareholders. Certain tax-exempt shareholders, including qualified pension plans, IRAs, salary deferral arrangements, 401(k) plans, and other tax-exempt entities, generally are exempt from federal income taxation except with respect to their unrelated business taxable income ("UBTI"). Tax-exempt entities are not permitted to offset losses from one unrelated trade or business against the income or gain of another unrelated trade or business. Certain net losses incurred prior to January 1, 2018 are permitted to offset gain and income created by an unrelated trade or business, if otherwise available. Under current law, the Fund generally serves to block UBTI from being realized by its tax-exempt shareholders with respect to their shares of Fund income. However, notwithstanding the foregoing, tax-exempt shareholders could realize UBTI by virtue of their investment in the Fund if, for example, (i) the Fund invests in residual interests of Real Estate Mortgage Investment Conduits ("REMICs"), (ii) the Fund invests in a REIT that is a taxable mortgage pool ("TMP") or that has a subsidiary that is a TMP or that invests in the residual interest of a REMIC, or (iii) Shares constitute debt-financed property in the hands of the tax-exempt shareholders within the meaning of section 514(b) of the Code. Charitable remainder trusts are subject to special rules and should consult their tax advisors. The IRS has issued guidance with respect to these issues and prospective shareholders, especially charitable remainder trusts, are strongly encouraged to consult with their tax advisors regarding these issues.

Certain Potential Tax Reporting Requirements. Under U.S. Treasury regulations, if a shareholder recognizes a loss on disposition of Shares of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder (or certain greater amounts over a combination of years), the shareholder must file with the IRS a disclosure statement on IRS Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a RIC are not excepted. Significant penalties may be imposed for the failure to comply with the reporting requirements. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisors to determine the applicability of these regulations in light of their individual circumstances.

Other Issues. In those states which have income tax laws, the tax treatment of the Fund and of Fund shareholders with respect to distributions by the Fund may differ from federal tax treatment.

FINANCIAL STATEMENTS

Financial statements and shareholder reports will be available after the Fund has completed a fiscal period of operations. When available, you may request a copy of the Fund's shareholder reports at no charge by calling 1-800-617-0004, or visit the Fund's website at www.deepwatermgmt.com
